Business Research Methods 14e contains stand-alone chapters that reflect research industry practices using real examples from all areas of business. She eloquently covers ethical issues and their solutions and has added more coverage of process models, sampling, how to, and data preparation. Conscious of the different learning styles of students, Schindler provides appropriate cues for both visual and verbal learners through the use of in-text exhibits, bolded key terms, conceptual photos throughout, and research thought leader quotes in PowerPoints for each chapter. She also used various interim GreenBook Research Industry Trends GRIT reports to guide the research for this revision. The latest GRIT Report is based on the largest study of research suppliers and users ever conducted. Automation and privacy are hot topics in GRIT, so she added material on both these topics in the 14th edition. This edition is available for purchase with the digital platform Connect, which provides a highly reliable, easy-to-use homework and learning management solution that embeds learning science and award-winning adaptive tools to improve student results.
