Lori Shemek, 2015-04-28 From a leading voice in health nutrition and fat cell research comes a radical and revolutionary approach to losing weight looking great and achieving optimum health simply by restoring your body s fat cells to their natural state Are you consistently overweight no matter what you do Have you tried everything Are

you plagued by stubborn fat hanging around your hips thighs and belly Well there s a reason for that All those frustratingly pointless diets and exercise regimes have failed to address the root cause of weight gain According to Dr Lori Shemek a successful diet isn t centered on calories or cardio She says Cutting calories doesn t cut it Our problems with fat are created because we eat foods that cause the body s natural fat cells to become inflamed Sadly the staples of the Standard American Diet from pasta and bread to factory farmed chicken and cattle from sugar and artificial sweeteners to salad dressing and soft drinks irritate our fat cells causing chronic inflammation and chronically oversized fat cells This irritation causes the body to store fat permanently no matter how hard you exercise or how diligently you cut back on calories Dr Shemek calls this serious condition FATflammation and only when you decrease the inflammation of the fat cells can you achieve the weight loss and optimum health you ve been chasing We need to forget about counting calories counting points fad diets no fat diets and spending countless hours at the gym There is a better and more satisfying way to lose the fat and maintain your desired weight If we want to fix our problems with fat Shemek writes we need to reduce the inflammation in our fat cells In *How to Fight FATflammation* Shemek reveals her revolutionary three week program that helps reboot your body chemistry by returning your body s fat cells back to their natural healthy state In the process she explains the critical importance of maintaining balance between good fats omega 3 and bad fats omega 6 and how a proper ratio of both will help boost your metabolism in short your body will burn fat simply by your eating the right kinds of fat She also helps you eliminate from your diet the dreaded FATflammation Four sugar refined grains high fructose corn syrup and artificial sweeteners Here s your chance to shrink your fat cells and get the body you always wanted *The American Journal of the Medical Sciences* ,1877 **U.S. News & World Report** ,2008 *Metabolical* Robert H. effect biochemical change to improve our health Lustig explains what to eat based on two novel criteria protect the liver and feed the gut He insists that if we do not fix our food and change the way we eat we will continue to court chronic disease bankrupt healthcare and threaten the planet But there is hope this book explains what s needed to fix all three **The Ohio State Medical Journal** ,1920 **Vitamins** Ragnar Berg,1923 **The Dental Cosmos** J.
