**The Trading Methodologies of W.D. Gann** Hima Reddy,2012-09-21 W

D Gann's works helped to pioneer the discipline of technical analysis and they still offer immense potential value to investors and traders. However, Gann's original publications are esoteric and can be challenging to read and use. In this book, long-time trader and expert technical analyst Hima Reddy brings these works to life for modern traders and investors. She distills Gann's tenets into crystal-clear, bite-size explanations and illuminates them with exceptionally intuitive charts and illustrations. Drawing on extensive personal experience, Reddy explains how Gann's insights into price pattern and time can be applied in all types of markets and market conditions. Using this book, any experienced trader can discover the value of Gann's approach and start utilizing it in his or her own trades. Then, with Reddy's discussion as a foundation, traders and investors can delve even more deeply into all of Gann's works, identifying even greater opportunities for profit.

*The Daily Trading Coach* Brett N. Steenbarger, 2009-03-23 Praise for THE DAILY TRADING COACH A great book. Simply written, motivational, with unique content that leads any trader, novice or experienced, along the path of self-coaching. This is by far Dr. Steenbarger's best book and a must-have addition to any trader's bookshelf. I'll certainly be recommending it to all my friends. Ray Barros, CEO Ray Barros Trading Group. Dr. Steenbarger has been helping traders help themselves for many years. Simply put, this book is a must-read for anyone who desires to achieve great success in the market. Charles E. Kirk, The Kirk Report. Dr. Brett, as he is affectionately known by his blog readers, has assembled a practical guide to self-coaching in this excellent book. The strategies he outlines are further enhanced with numerous resources and exercises for the reader to refer to and keep the principles fresh. I enthusiastically encourage anyone interested in bettering their trading and investing to read this book and keep it on their desk as a constant source of learning. Brian Shannon, www.alphatrends.net, author of *Technical Analysis Using Multiple Timeframes*. Dr. Brett has distilled his years of experience as both a trader and a psychologist/coach into the 101 practical lessons found in *The Daily Trading Coach*. Those lessons provide effective strategies for coping with the stumbling blocks that traders often face. This book should be a cornerstone of any serious trader's library. Michael Seneadza, equities trader and blogger at TraderMike.net

**The Art and Science of Technical Analysis** Adam Grimes, 2012-05-31 A breakthrough trading book that provides powerful insights on profitable technical patterns and strategies. *The Art and Science of Technical Analysis* is a groundbreaking work that bridges the gaps between the academic view of markets, technical analysis, and profitable trading. The book explores why randomness prevails in markets most but not all of the time and how technical analysis can be used to capture statistically validated patterns in certain types of market conditions. The belief of the book is that buying and selling pressure causes patterns in prices, but that these technical patterns are only effective in the presence of true buying/selling imbalance. *The Art and Science of Technical Analysis* is supported by extensive statistical analysis of the markets, which will debunk some tools and patterns, such as Fibonacci analysis, and endorse other tools and trade setups. In addition, this reliable resource discusses trader psychology and trader learning curves based on the author's extensive experience as a trader and trainer of traders. Offers serious traders a way to think about market problems.

understand their own performance and help find a more productive path forward Includes extensive research to validate specific money making patterns and strategies Written by an experienced market practitioner who has trained and worked with many top traders Filled with in depth insights and practical advice The Art and Science of Technical Analysis will give you a realistic sense of how markets behave when and how technical analysis works and what it really takes to trade successfully

**MARKET TIMING FOR THE INVESTOR** BC Low, The task of timing of market tops and bottoms is a huge challenge for investors and traders Intuitively we look for market bottoms to buy and market tops to sell basically timing the market This book showcases a new approach that technically picks market tops and bottoms for various trends short to long term using an innovation of the Directional Movement Index DMI created by pioneer master technician Welles Wilder The innovation is named the Triple DMI System The author s first title Integrating Technical Analysis for the Investor helps the investor to integrate technical analysis for investing This title completes the approach by helping the investor to technically time the market
