An Introduction to AI and Intercultural

Communication Education Fred Dervin, Hamza R'boul, 2025-09-17 An Introduction to AI and Intercultural Communication
Education is the first historic volume to explore the intersection of AI and intercultural communication education
interrogating both the transformative possibilities and ethical dilemmas posed by emerging technologies Through diverse
scholarly perspectives the book examines how AI tools ranging from language models such as ChatGPT and DeepSeek to
generative image systems could reshape the way we teach research and conceptualise interculturality While AI offers
innovative opportunities for virtual exchanges automated translation and accessible learning it also risks reinforcing
stereotypes Western centric epistemologies and reductive narratives if used uncritically The contributors address pressing
questions Can AI facilitate decolonial and reflexive approaches to intercultural communication education or does it inevitably
reproduce dominant paradigms How can educators harness the potential of AI while safeguarding against its pitfalls such as
algorithmic bias and the erasure of indigenous knowledge systems Combining theoretical critique with case studies the
volume highlights the need for ethical frameworks that prioritise epistemic justice pluralistic perspectives and human agency
in AI assisted intercultural communication and education This book is an indispensable resource for students researchers and
educators interested in the complexities of technology mediated learning as well as the broader fields of higher education
intercultural studies and internationalisation and globalisation

Supporting Self-Regulated Learning and Student

Success in Online Courses Glick, Danny, Bergin, Jeff, Chang, Chi, 2023-03-07 Students who self regulate are more likely to
improve their academic performance find value in their learning process and continue to be effective lifelong learners
However online students often struggle to self regulate which may contribute to lower academic performance Likewise less
experienced online teachers who are in the process of implementing or have implemented a shift from in person to distance
learning may struggle to enable their students to employ effective self regulation techniques Supporting Self Regulated
Learning and Student Success in Online Courses examines current theoretical frameworks research projects and empirical
studies related to the design implementation and evaluation of self regulated learning models and interventions in online
courses and discusses their implications Covering key topics such as online course design student retention and learning
