

A close-up, low-angle shot of an ant colony. In the foreground, a large, dark brown ant is shown in profile, facing right. Its body is highly detailed, showing the segmented abdomen, thorax, and head. In the background, a smaller, lighter-colored ant is visible, also facing right. The background is a warm, golden-brown color, suggesting a tunnel or nest entrance, with some dust or particles visible in the air. Empire Of The Ants:

Empire Of The Ants Bernard Werber,2012-12-31 Ants came to this planet long before man Since then they have developed one of the most intricate civilizations imaginable a civilization of great richness and technological brilliance During the few seconds it takes you to read this sentence some 700 million ants will be born on earth Edmond Wells had studied ants for years he knew of the power which existed in their hidden world On his death he leaves his apartment to his nephew Jonathan with one proviso that he must not descend beyond the cellar door But when the family s dog escapes down the cellar steps Jonathan has little alternative but to follow Innocently he enters the world of the ant whose struggle for existence forces him to reassess man s place in the cycle of nature It is an experience that will alter his life for ever Empire of the Ants is an extraordinary achievement It takes you inside the ants universe and reveals it to be a highly organised world as complex and relentless as human society and even more brutal [Horror Films of the 1970s](#) John Kenneth Muir,2007 **The Short Stories** Herbert George Wells,1929 **Deleuze and the Animal** Colin Gardner,2017-04-01 Becoming animal is a key concept for Deleuze and Guattari the ambiguous idea of the animal as human and nonhuman life infiltrates all of Deleuze s work These 16 essays apply Deleuze s work to analysing television film music art drunkenness mourning virtual technology protest activism animal rights and abolition Each chapter questions the premise of the animal and critiques the centrality of the human This collection creates new questions about what the age of the Anthropocene means by animal and analyses and explores examples of the unclear boundaries between human and animal **In the days of the comet and seventeen short stories** Herbert George Wells,1925 **The Works of H.G.
