Production Drawing K.L. Narayana, P. Kannaiah, K. Venkata Reddy, 2009 About the Book In the quest to improve the quality of engineering education it is not just enough to teach engineering principles and design procedures An equal emphasis should be stressed to the manufacturing processes and in preparation of production drawings Keeping this in mind the contents of the book are planned and developed A production drawing is an important document as the entire production depends on the design of the component which may include the selection of the process also The production drawing is a guide not only to the artisan in the shop floor but also to the design engineer in successful manufacture of a product Realising the practical importance of production drawings the subject is nowadays introduced as a full course at both diploma and degree level The book is the first of its kind incorporating the latest principles of drawings as per BIS SP 46 1988 The topics covered include Limits fits and tolerances including geometrical tolerances Surface roughness Specification of materials and standard mechanical components Preparation of working drawings for i single components ii mating components and iii assemblies Process sheets and component manufacture in typical cases Tool drawings Jigs and fixtures Inspection and gauging tool drawings Conventional representation

A Textbook on Engineering Drawing P Kannaiah, K.L Narayana, K Venkata Reddy, 2012

Machine Drawing N. D. Junnarkar, 2007 Machine Drawing is divided into three parts Part I deals with the basic principles of technical drawing dimensioning limits fits and tolerances Part II provides details of how to draw and put machine components together for an assembly drawing Part III contains problems on assembly drawings taken from the diverse fields of mechanical production automobile and marine engineering

Machine Drawing O.P. Jakhar, Amit Mathur, This book is Designed for the students of Engineering and Technology as well as specially for Mechanical Engineering Degree and Diploma students The teaching of this course faces difficulty in explaining the various concept of machine drawing viz orthographical projection sectioning complicated mechanical assembly drawing etc Sometimes explanation requires some three dimensional and complicated drawing to be drawn on the black board which is quite impossible due to the time constraint of class This book is an outcome of the strong need felt by students offering the course and the teaching need felt by us The teacher can explain the related concepts drawing methods and uses of various parts being drawn etc in each practical class without bothering the black board The subject matter has been compressed from the view point of Mechanical Engineering students The book also contains Basic Drawing Softwares which describes about the basics of Auto CAD CATIA PROE ANSYS etc which is useful for today s need of Engineering Technology
