But in communication in English we selected grammar and vocabularies commonly used in Business. One typical feature of Business English is formal style and lack of emotions. In Business English words have a fixed meaning and purely denotative function. Concepts are expressed in the shortest possible way. Within the confines of Business English or any other specialist language meaning is not context dependent. This book contains several strategies to engage in communication in Business smoothly. It guides the students who later become business practitioners to communicate in English orally or in a written form when doing business activities. The purpose of using English is specifically for communication about business in English. In constructing the book the writers take into account the educational point of view meaning the strategy making the students learn business English easily and quickly.
