Oliver Twist. David Copperfield. Our mutual friend. Great expectations. Little Dorrit. Martin Chuzzlewit Charles Dickens,1879 **Fiction on the Page in Nineteenth-Century Magazines** Maria Damkjær,2024-11-25 What makes fiction recognizable as fiction Texts are shaped by their material print but this book argues that they can also be made in response to it that the needs of the magazine in the nineteenth century spurred writers to create hybrid entangled texts Using book history genre theory and literary close reading this book argues that narrative fiction in the nineteenth century popular periodical was a malleable substance By looking at typography and the attempts to squeeze in too much text or stretch out too little text the book asks what the relationship was between the page that needed filling and the short story that tried to fill it In the messy hybrids and outliers we explore what fiction might have become The book works with magazines like the Englishwoman s Domestic Magazine first series 1852 59 the Family Herald 1842 1945 the Home Circle 1849 54 and authors like Elizabeth Gaskell George Augustus Sala and Samuel Beeton It also includes a chapter on Charles Dickens s arguably least successful venture Master Humphrey s Clock 1840 1 where Dickens was noticeably straining to sell and fill a weekly magazine While the book is not attempting to destabilise the status of canonical fiction it does ask how the page makes fiction happen what kind of readers magazines imagined for themselves and what readers thought they were reading when they picked up an issue The book argues that magazines projected a print imaginary a symbolic realm where the magazine fits perfectly into the lives of happy active readers

The Practice of English Teaching Graham Owens,1970 No secondary teacher today is faced with such a demanding task as the teacher of English Research has emphasized the importance of language to the whole intellectual emotional and social growth and report after report has pushed the frontiers of English further onwards The teacher of English requires a number of skills a depth of theory a diversity of knowledge and a familiarity with a wide range of literature which is truly daunting This book meets a real need and will be valued by all teachers of English from the student on school practice to the experienced teacher anxious to survey all aspects of current work in the 12 16 age range It is essentially a practical book arising out of the editors strongly felt needs for a comprehensive book which would translate the radical rethinking of the fifties and sixties into detailed descriptions of successful work They therefore invited a large number of the most experienced and well known teachers of English to write about some aspects in which they had special expertise and experience Although written independently these articles show a concern for finding meaningful and realistic ways of helping the individual pupil s grasp of language for his personal and intellectual needs They share a dislike of the artificial textbook exercise and an ability to invent instead methods of prompting the individual to talk write and read more fully There is a full consideration of the place of modern media in the classroom a lively exploration of the possibilities of drama as an integral part of English teaching and an unusually practical section of ways of encouraging wide reading The individual articles are linked by a perceptive commentary from the editors and each contributor has been given space enough to convey the detail of his subject so that this book of effective classroom practice not mere generalization Annual Paperbound Book Guide for High Schools ,1969 Book Review Digest ,1983 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher
