The Tapestry of Popular Songs in 16th- and 17th-Century China Kathryn Lowry, 2021-09-20 Popular songs in sixteenth and seventeenth century China form a rich and intriguing body of materials hardly studied so far in the English speaking world This book is about these songs and their impact on Chinese culture and literary practice It examines the tapestry books in which popular songs circulated how books shaped readers how books were shaped by a range of literacies and how arrangements of performance texts aided imitation and selection of words or phrases Publishing histories of the popular song collections bring to light how songs were duplicated for readers among the elite and sub elite The analysis of how popular songs bring together the high and the low is of special value for literary scholars and intellectual historians and challenges the traditional dichotomy between elite and popular culture

Nienhauser, 2010 The book provides the most up to date and comprehensive survey of the genre of Tang tales in English including discussions of the numerous Chinese studies from the last decade Tang Tales itself contains the first annotated translations of these famous stories which are deciphered and interpreted specifically for students and scholars interested in the medieval Chinese literature Following the model of intertextual readings employed by Glen Dudbridge in *The Tale of Li Wa* Oxford 1983 the annotation points to the resonances to the classical texts the translator's notes following each translation then explain how these references expand the meaning of the text In addition to six translations of the major tales
