## **Media 2.0 : Powered by Artificial Intelligence ( Preparing Future Media Professionals for an AI-Integrated World**

) Prof. P. Sasikala, Benny Mathur, 2025-11-13 Social Media 2.0 Powered by Artificial Intelligence Preparing Future Media Professionals for an AI Integrated World is a comprehensive guide designed for students, educators, and emerging professionals in the field of New Media Studies. In an era where social platforms are not just communication tools but intelligent ecosystems, this book explores how Artificial Intelligence is reshaping the way we create, share, consume, and interpret content online. From AI-powered content generation and recommendation systems to data analytics, automation, and ethical implications, the book covers it all in a manner that is both academically grounded and practically applicable. Divided into three core sections, the first part lays the foundation by examining social media's evolution, platform dynamics, content planning, and branding. The second part dives into the transformative role of AI, showcasing how machine intelligence is integrated into social platforms from chatbots and sentiment analysis to virtual influencers and personalized feeds. The third part is focused on the topic of social media for public relations and how public relations agencies can leverage the power of social media. Developed with a special focus on the Indian digital landscape, this text bridges global trends with local relevance. Each chapter is enriched with case studies, key concepts, real-world examples, and reflective questions to encourage critical thinking and hands-on learning. Whether you're a student beginning your journey in digital media or a teacher seeking structured content for your classroom, this book offers a future-facing framework to navigate and lead in a media environment increasingly shaped by AI.

*Mastering Software Product Management: Practical Solutions and Expert Tips for Strategy, Decision-Making, and Building & Selling Market-Leading Software Products* Sambit Kumar, 2025-04-09 A Guide to Conceiving Products for Sustained Competitive Advantage. Key Features: Step-by-step framework for building competitive market-driven products. Practical guidance on strategy, pricing, user experience, and agility. Proven techniques to handle competition, compliance, and intellectual property. Book Description: Product management is the backbone of successful businesses, bridging strategy, innovation, and execution. Mastering Software Product Management takes a goal-driven approach to product management, helping readers understand how software products create differentiated value while reducing costs. It explores the external forces shaping business success: industry rivalry, bargaining power of buyers and suppliers, new entrants, and substitutes, and provides a strategic framework to achieve sustained competitive advantage. Readers will learn how to build processes that counter these challenges. A strong product vision can outmaneuver competition; value-based pricing and a seamless user experience can convert buyers into loyal customers; and well-structured contracts can align supplier expectations. Protecting intellectual property strengthens innovation, while compliance standards create barriers against substitutes. Engaging teams with agile practices ensures smooth execution and long-term product success. Rather than prescribing rigid processes, this book helps readers recognize the necessity of product management and develop their own strategies. By identifying core strengths and aligning them with business objectives, readers will gain the

tools to build market leading products and drive sustained growth What you will learn Decode the external forces that shape market competition and strategy Craft a compelling product vision that drives business success Turn buyers into loyal customers with pricing and user experience Secure vendor accountability with well structured contracts Strengthen market position through intellectual property and compliance Align teams and accelerate execution with agile product management
