The Mobilities of Ships Anyaa Anim-Addo, William Hasty, Kimberley Peters, 2017-10-02 We live in a world that is ever on the move as is increasingly recognised within research on mobilities Yet studies of mobility have failed to go to sea with the same enthusiasm as mobilities ashore When we consider mobility we most often examine those movements that evidently form part of our everyday lives We forget to look outwards to the sea Yet ships have played and continue to play a significant role in shaping socio cultural political and economic life This book turns our attention to the manifold mobilities that occur at sea through an exploration of the mobilities of ships themselves as well as the movements of objects subjects and ideas that are mobilised by ships The Mobilities of Ships brings together seven chapters that tack through unexplored waters and move between diverse case studies including pirate ships naval vessels and luxury yachts In so doing The Mobilities of Ships offers a rich insight into the world of shipping mobilities past and present This book was published as a special issue of Mobilities

Maritime Terrorism and Piracy in the Indian Ocean Region Awet Weldemichael, Patricia Schneider, Andrew Winner, 2017-10-02 Unregulated or lesser regulated maritime spaces are ideal theatres of operation and mediums of transportation for terrorists insurgents and pirates For more than a decade the Indian Ocean waters adjoining Somalia have been a particular locus of such activities with pirates hijacking vessels and Al Qaeda and Al Shabab elements travelling between Africa and the Arabian

Peninsula operating lucrative businesses and even staging deadly operations at sea These operations and threats however remain by and large understudied Responses to the two threats have varied highlighting the lack of cohesive regional and global institutions with the mandate and the capacity to address them Those scholarly deliberations on Indian Ocean maritime security focus on piracy and armed robbery at sea while their terrorist insurgent counterparts have eluded sustained scrutiny This volume will help close that gap by looking at both from the field in Somalia and Yemen within broader frameworks of regional maritime security and port state control international maritime law and the ongoing search for maritime resources The European African and Middle Eastern case studies add salience to the regional and international complexity surrounding maritime security off the Horn of Africa This book was originally published as a special issue of the Journal of the Indian Ocean Region *Managing Human Resources in the Shipping Industry* Jiangang Fei,2018-04-17 Each industry faces unique human resource management challenges and opportunities and in shipping these include a global labour market and global unionism long periods spent at sea and health and safety issues resulting from a variety of risks This book explores all the key aspects of human resource management in the shipping industry and how they specifically relate to the shipping workforce The book also discusses the practices and issues associated with recruitment training and development and retention of personnel and knowledge in the shipping industry In addition the book addresses the human resource management challenges faced by the industry including achieving work life balance maintaining employee health and wellbeing managing risk and crisis and applying knowledge management principles With case studies in chapters exploring how the principles have been put into practice in the real world and discussion questions to prompt further enquiry this book will be of great interest to students and academics of maritime studies and human resource management more broadly as well as professionals in the shipping industry
