**Emotion & Relationships (2 Books in 1)** Sadhguru,2018-01-01 Emotion One can make any emotion into a creative force in one s life Sadhguru It s not just poetic license that allows us to refer to emotions as juicy In a literal sense also emotions are a chemical cocktail that course through our bodies But while we have no problems with pleasant emotions unpleasant emotions are the source of much angst in our lives In *Emotion The Juice of Life* Sadhguru looks at the gamut of human emotions and how to turn them into stepping stones rather than stumbling blocks Relationships If you enhance yourself into a very beautiful state everyone will want to hold a relationship with you Sadhguru Human beings constantly make and break relationships Unfortunately relationships can make and break human beings too Why are relationships such a circus for most of us What is this primal urge within us that demands a bond physical mental or emotional with another And how do we keep this bond from turning into bondage These are the fundamental questions that Relationships Bond or Bondage looks at as Sadhguru shares with us the keys to forming lasting and joyful relationships whether they are with husband or wife family and friends at work or with the very existence itself Sadhguru is a yogi and profound mystic of our times An absolute clarity of perception places him in a unique space in not only matters spiritual but in business environmental and international affairs and opens a new door on all that he touches

**Emotion and Embodiment** Glen A. Mazis,1993 This wide ranging work explores what the emotions if approached on their own terms can tell us about our world and our selves By doing so sensitively it fills a missing space in Western philosophy literary theory and psychology in which the emotions are seen for the first time as the primary way of understanding experience through the depth of the sensual perceptual rather than as mere handmaidens to reason or biology The work weaves together diverse philosophical and literary works from Merleau Ponty to Melville Duras to James contrasts Eastern and Western perspectives and arrives at a new vision of reality as becoming and philosophy as fragile ontology

**The Strides of Vishnu** Ariel Glucklich,2008-05-09 Books about Hinduism often begin by noting the immense size and complexity of the subject Hinduism is vast and diverse they say Or it doesn t exist at all Hinduism is merely a convenient and foreign term that masks a plurality of traditions In either case readers are discouraged by the thought that they are getting only a tiny sample or a shallow overview of something huge and uniquely difficult This book is designed to be accessible and sophisticated holding the reader s interest in the dynamic sequence of ideas through time and place Each of the 12 chapters

combines historical material with key religious scientific and philosophical ideas supported by substantial quotations from scriptures and other texts Historic places and persons are fleshed out as actors in a narrative about the relation of the sacred to ordinary existence as it is mediated through arts sciences rituals and philosophical ideas Although many books introduce the Hindu tradition this is the first with a broad historical and cultural focus that emphasizes archaeological as well as textual evidence
