Trumpet Legends is an examination of the lives and contributions of jazz trumpeters born between 1925 and 1940. Included are Miles Davis, Maynard Ferguson, Doc Severinsen, Chet Baker, and Clifford Brown, along with scores of other men and women who created jazz with a trumpet. This is an essential guide for the student of jazz, those interested in history, and those who just like to read entertaining true stories about the most colorful people. The Jazz Trumpet Legends three-volume series is the most comprehensive book on the subject. In the series, 867 trumpeters are discussed. The second volume covers the trumpeters in the center of the history of jazz. There are the sad stories of those who died too young: Clifford Brown at 25, Ray Wetzel at 27 from automobile accidents, Joe Gordon at 35 from a house fire, Booker Little at 23 from uremia, balanced by the positive stories of those who accomplished much with their lives. Miles Davis invented cool jazz and fusion. Maynard Ferguson took the trumpet to new heights. Lionel Ferbos performed regularly for a couple of years after his hundredth birthday. Clara Bryant and Betty O'Hara showed that women could get the job done on the trumpet. Modern Jazz Trumpet Legends contains two appendices that apply to trumpeters in all three volumes: a yearly calendar showing for each day of the year the trumpeters born on that date and a geographical listing of the states and countries showing for each place the trumpeters born there. Early Jazz Trumpet Legends is the first of three volumes organized chronologically by date of birth. The second volume, Modern Jazz Trumpet Legends, covers those born between 1925 and 1940, and the third volume, Current Jazz Trumpet Legends, covers those born after 1940.

The Cambridge Companion to Brass Instruments Trevor Herbert, John Wallace, 1997-10-13. This Companion covers many diverse aspects of brass instruments and in such detail. It provides an overview of the history of brass instruments and their technical and musical development. Although the greatest part of the volume is devoted to the western art music tradition with chapters covering topics from the medieval to the contemporary periods, there are important contributions on the ancient world, non-western music, vernacular, and popular traditions, and the rise of jazz. Despite the breadth of its narrative, the book is rich in detail with an extensive glossary and bibliography. The editors are two of the most respected names in the world of brass performance and scholarship, and the list of contributors includes the names of many of the world's most prestigious scholars and performers on brass instruments.
