readers learn by taking a voyeuristic peek into the private family lives of the book's characters. Readers can identify with the fictitious parents and coaching clients in the stories and see first hand how the characters' life experiences shaped their unique good mother myths and how these myths create conflict in their lives. The author offers up ideas for how the character can reject her current thinking and adopt a more useful outlook to improve her situation. The story arc allows readers to identify and then project how their parenting may be unknowingly going off the rails. The goal of this book is to provide parents with some basic education and a means of self discovery. Readers uncover their own good mother myths and are given an eye opening glimpse into potential issues to challenge their thinking. A great sense of empowerment is restored as mothers become better able to resist the pulls of their personal and cultural myths and instead begin parenting with greater intention and in ways that are more suitable to proper child guidance.
