Academic Writing Across The Disciplines Ldc:

Writing in the Disciplines Mary Lynch Kennedy, William John Kennedy, Hadley M. Smith, 2004 Writing in the Disciplines A Reader for Writers Fifth Edition provides an anthology of readings that represents various rhetorical approaches across academic disciplines such as humanities the natural sciences and technology and the social sciences New to the Fifth Edition New selections featuring exciting and often controversial articles on topics ranging from cloning to saving endangered species to security in the wake of September 11th to the changing American family All new suites of articles dedicated to current topics such as Rethinking School and Religion and Identity Many collaborative activities are offered to facilitate group work and strategies for learning through interaction Cosmopolitan English and Transliteracy Xiaoye You, 2016-08-31 Winner CCCC Research Impact Award 2018 Despite the vast number of multilingual speakers in the United States and the pervasive influence of globalization writing studies in this country is still inextricably linked to a nationalistic monolingual English ideology In Cosmopolitan English and Transliteracy Xiaoye You addresses this issue by proposing that writing studies programs adopt a cosmopolitan perspective Emphasizing local and global forms of citizenship and identification You merges a humanistic vision with the rigor of social science arguing that linguistic and cultural differences can be explored to recover human connections normally severed by geographical and semiotic borders You examines several areas of writing affected by globalization He then turns to the composition classroom highlighting the challenges and possibilities of crossing cultural boundaries in academic discourse before introducing a pedagogy aimed at fostering American students translingual and transcultural sensibilities Included is a model for training writing teachers in the context of globalization which aims to help instructors gain practical knowledge about the needs and resources of multilingual writers through communication technologies and cross cultural partnerships By introducing cosmopolitan perspectives into the composition classroom You challenges traditional assumptions about language identity and literacy as they relate to writing studies Innovative and provocative Cosmopolitan English and Transliteracy charts a new way forward for writing programs with a call to focus on global rather than national identity **Language Perceptions and Practices in Multilingual Universities** Maria Kuteeva, Kathrin Kaufhold, Niina Hynninen, 2020-04-03 This edited book examines language perceptions and practices in multilingual university contexts in the aftermath of recent theoretical developments questioning the conceptualization of language as a static entity drawing on case studies from different Northern European contexts in order to explore the effects of phenomena including internationalization widening participation and migration patterns on language attitudes and ideologies The book provides cutting edge perspectives on language uses in Northern European universities by drawing attention to the multiplicity of language practices alongside the prominence of English in international study programmes and research publication It will be of interest to students and scholars of multilingualism sociolinguistics applied linguistics and education as well as language policymakers bfiqo Writing in the Academic

Disciplines, 1870-1990 David R. Russell,1991 In this singular study David R Russell provides a history of writing instruction outside general composition courses in American secondary and higher education from the founding of public secondary schools and research universities in the 1870s through the spread of the writing across the curriculum movement in the 1980s Russell s task is to examine the ways writing was taught in the myriad curricula that composed the varied structure of secondary and higher education in modern America He begins with the assertion that before the 1870s writing was taught as ancillary to speaking As a result formal writing instruction was essentially training in handwriting the mechanical process of transcribing sound to visual form From this point Russell carefully examines academic writing its origins and its teaching from a broad institutional perspective He looks at the history of little studied genres of student writing such as the research paper lab report and essay examination Tracing the effects of increasing specialization on writing instruction he notes how two new ideals of academic life research and utilitarian service shaped writing instruction into its modern forms Finally he contributes the definitive history of the current writing across the curriculum movement providing a study of the long tradition of other WAC efforts with an analysis of why they have waned **Academic Writing** Janet Giltrow,1995

Academic Writing Janet Giltrow,1995-01 **Key Concepts 1** Barbara Smith-Palinkas,Kelly Croghan-Ford,2010 Key Concepts helps students master the academic content academic vocabulary and academic reading and writing skills they need to succeed at college Academic Discourse Across Disciplines Ken Hyland,Marina Bondi,2006 This volume reflects the emerging interest in cross disciplinary variation in both spoken and written academic English exploring the conventions and modes of persuasion characteristic of different disciplines and which help define academic inquiry This collection brings together chapters by applied linguists and EAP practitioners from seven different countries The authors draw on various specialised spoken and written corpora to illustrate the notion of variation and to explore the concept of discipline and the different methodologies they use to investigate these corpora The book also seeks to make explicit the valuable links that can be made between research into academic speech and writing as text as process and as social practice Genres Across the Disciplines Hilary Nesi,Sheena Gardner,2012-02-23 Genres across the Disciplines presents cutting edge corpus based research into student writing in higher education Genres across the Disciplines is essential reading for those involved in syllabus and materials design for the development of writing in higher education as well as for those investigating EAP The book explores creativity and the use of metaphor as students work towards becoming experts in the genres of their discipline Grounded in the British Academic Written English BAWE corpus the text is rich with authentic examples of assignment tasks macrostructures concordances and keywords Also available separately as a paperback *Beyond Economic Interests* Keiko Yasukawa,Stephen Black,2016-02-10 Over the last two decades an increasingly economic discourse has dominated discussions about adult literacy and numeracy This book provides critiques of and alternative narratives to the dominant discourse Authors provide tools and methodologies of critique including ways of seeing how policies in the countries of focus

come to be captured almost completely by the interests of business and industry as well as how to critically interpret the data that policy makers use to justify their priorities But adult literacy and numeracy practitioners and learners find spaces and places to pursue learning that matters for the lived experiences of adults and their communities Beyond Economic Interests presents the struggles and achievements of practitioners and learners that lead the readers of the book to critically appreciate that a counter narrative to the purely economic discourse of adult literacy and numeracy is much needed and possible

Students Writing Across the Disciplines Cyndia Susan Clegg, Michael M. Wheeler, 1991 [Academic Writing - Third Edition](#) Janet Giltrow, 2002-03-21 Academic Writing is a unique introduction to the subject As the author puts it in her preface this book develops from a strong claim namely that style is meaningful In developing that theme the author draws meaningfully on theory especially genre theory while remaining grounded in the particular Giltrow presents and discusses examples of actual academic writing of the sort that students must learn to deal with daily and to write themselves As newcomers to the scholarly community students can find that community's ways of reading and writing mysterious unpredictable and intimidating Academic Writing demystifies the scholarly genres shedding light on their discursive conventions and on academic readers' expectations and values Throughout Academic Writing respects the student writer it engages the reader's interest without ever condescending and it avoids the arbitrary and the dogmatic The book also offers abundant exercises to help the student develop techniques for working productively at each stage of the scholarly writing process mastering and summarizing difficult scholarly sources planning and revising to create good working conditions for the reader The third edition of Giltrow's extremely successful book incorporates extensive revisions that integrate the theoretical perspectives of genre theory into the whole of the book in a more organic fashion the changes are designed to make the book both more attuned to scholarly practice and more accessible to the undergraduate student Giltrow's Academic Reading is designed as an accompanying reader for Academic Writing
