Axis Rule in Occupied Europe Raphael Lemkin, 2014 In this study Polish emigre Raphael Lemkin 1900-1959 coined the term genocide and defined it as a subject of international law Provided by publisher **The Axis Occupation of Europe** Winston Ramsey, Gail Ramsey, 2018-06-30 Dr Raphael Lemkin was a Polish migr and the person who coined the term genocide during his study of international law concerning crimes against humanity which he began in 1933 the year that the Nazis assumed power in Germany His much acclaimed work *Axis Rule in Occupied Europe* was published in 1944 and extracts from it now form the framework on which we have built this then and now coverage of the occupation of Czechoslovakia Memel Albania Danzig Poland Denmark Norway Luxembourg the Netherlands Belgium France Monaco the Channel Islands Greece Yugoslavia the Baltic states the Soviet Union Romania Italy and Hungary Individual chapters also cover the most serious crimes committed by the occupier the destruction of whole villages in Czechoslovakia France the Netherlands and Greece and the genocidal acts carried out in Italy Greece Belgium although nothing can equal the wholesale slaughter enacted in the Balkans and the USSR It has been estimated that the Axis occupation of Europe cost between 20 and 25 million civilian lives apart from the deaths of at least 16 million servicemen and women who paid the ultimate price in trying to put Europe back together again It is a debt that can never be repaid **The Axis Empire in Southeast Europe, 1939-1945** Jean W. Sedlar, 2007 This book presents a comprehensive overview of World War II in the Balkans Yugoslavia Greece Albania Romania and Bulgaria Among topics discussed are German wartime political dominance the Axis victory and military occupation guerrilla resistance and finally the German retreat *The Laws of Armed Conflicts* Dietrich Schindler, Jiří Toman, 2004 This book is a collection of conventions resolutions and other documents on the law of the armed conflicts adopted or elaborated since the codification movement began in the 19th century *The Biographical Landscapes of Raphael Lemkin* Piotr Madajczyk, 2023-11-03 The book is the first biography of Raphael Lemkin to draw on a comprehensive body of research into Lemkin as a person and his background and will be of interest to both non specialists and academics Drawing on archival materials a nuanced description is provided of the ethnically mixed Belarusian Polish Jewish border region where Lemkin grew up and which shaped him clarifying at the same time some of the misinterpretations that have surrounded Lemkin s life Lemkin s professional career and intellectual interests up to the time of his flight from Poland after the German aggression of 1939 are exhaustively described In the latter part of the book the author poses among other things the question of how Lemkin s activities in the United States were influenced by the experience of the first almost 40 years of his life *Nelson's Perpetual Loose-leaf Encyclopædia* John Huston Finley, William Peterson, Sir Edward Parrott, 1917 **Arsenal of World War II** Paul A. C. Koistinen, 2004 Prolific munitions production keyed America s triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily

supplied by American business While that relationship was remarkably successful in helping the U S win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen s fourth installment of a monumental five volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from 1940 through 1945 describing the nation s struggle to establish effective control over industrial supply and military demand and revealing the growing partnership between the corporate community and the armed services Koistinen traces the evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military s supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe *Congressional Record* United States. Congress,1943 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Guide to U.S. Elections SET CQ** Press,2005-11-17 Legacy of Islamic Antisemitism Andrew G. Bostom, M.D.,2011-11-29 Exceedingly well organized and extensively documented CHOICEThe publication of the present anthology of primary sources and secondary studies on the theme of Muslim antisemitism is a groundbreaking event of major scholarly cultural and political significance Editor Andrew Bostom has mined the relevant literature to produce the fullest record on this subject in existence After the publication of his work all the oft repeated but erroneous misunderstandings of a tolerant Islam and of a medieval Jewish Muslim golden age will need to be permanently retired Everyone interested in Jewish and Islamic history as well as current events in the Middle East should read this book and soon Steven T Katz Director Elie Wiesel Center for Judaic Studies Boston University and

author of *Post Holocaust Dialogues* and *The Holocaust in Historical Context* The antisemitism of the Muslim Middle East that we hear see and experience daily from the racist cartoons to the constant chorus of pigs and apes is often attributed to European origins as if the radical Muslim world learned this endemic hatred through the tragedy of imperialism and colonialism In fact a deep suspicion and frequent loathing of Jews is deeply rooted in the Middle East antedating European rule and sometimes evidenced in passages in the Koran and early holy Islamic texts Andrew Bostom produces a vast literature of Middle Eastern Islamic antisemitism and critics may be as surprised at his conclusions as they are unable to refute his carefully compiled corpus of evidence Victor Davis Hanson Senior Fellow The Hoover Institution Stanford University author of *Carnage and Culture* and *A War Like No Other* This comprehensive meticulously documented collection of scholarly articles presents indisputable evidence that a readily discernible uniquely Islamic antisemitism a specific Muslim hatred of Jews has been expressed continuously since the advent of Islam Debunking the conventional wisdom which continues to assert that Muslim animosity toward Jews is entirely a 20th century phenomenon fueled mainly by the protracted Arab Israeli conflict leading scholars provide example after example of antisemitic motifs in Muslim documents reaching back to the beginnings of Islam The contributors show that the Koran itself is a significant source of hostility toward Jews as well as other foundational Muslim texts including the hadith the words and deeds of Muhammad as recorded by pious Muslim transmitters and the sira the earliest Muslim biographies of Muhammad Many other examples are adduced in the writings of influential Muslim jurists theologians and scholars from the Middle Ages through the contemporary era These primary sources and seminal secondary analyses translated here for the first time into English such as Hartwig Hirschfeld s mid 1880s essays on Muhammad s subjugation of the Jews of Medina and George Vajda s elegant comprehensive 1937 study of the hadith detail the sacralized rationale for Islam s anti Jewish bigotry Numerous complementary historical accounts illustrate the resulting plight of Jewish communities in the Muslim world across space and time culminating in the genocidal threat posed to the Jews of Israel today Scholars educators and interested lay readers will find this collection an invaluable resource for understanding the phenomenon of Muslim antisemitism past and present
