JAMA Care at the Close of Life is based on a widely successful series of articles appearing over the course of the last ten years in JAMA the world's most widely read medical journal. The series is directed by Stephen McPhee, a leading authority of end of life care and the chief editor of our market leading Current Medical Diagnosis and Treatment text. The articles in the series cover fundamental topics and challenges in caring for patients who have been given a terminal diagnosis. Featuring a strong focus on evidence based medicine and organized by clinical cases, the articles are widely read by faculty, medical students and clinicians who frankly have not been given a solid educational experience on this very important medical issue. The book will be physically modeled after The Rational Clinical Examination in a full color format that highlights the clinical cases. It will be well suited for use as a required or recommended textbook for medical PA and NO students and as a clinical reference text for trainees and practicing physicians and nurses.
