**Centenarians**  
Calogero Caruso, 2019-08-05 This state of the art review on longevity focuses on centenarians studied as a model of positive biology The extraordinary rise in the elderly population in developed countries underscores the importance of studies on ageing and longevity in order to decrease the medical economic and social problems associated with the increased number of non autonomous individuals affected by invalidating pathologies Centenarians have reached the extreme limits of human life span Those in relatively good health who are able to perform their routine daily tasks are the best examples of extreme longevity representing selected individuals in which the appearance of major age related diseases including cancer and cardiovascular diseases has been consistently delayed or avoided The relationship between causality and chance is an open discussion topic in many disciplines In particular ageing the related diseases and longevity are difficult to define as a consequence of causality chance or both Discussing the relevance of these different factors in the attainment of longevity the book gathers contributions on genetic epigenetic and phenotypic aspects of centenarians The positive biology approach is applied to clarify the causes of positive phenotypes as well as to explain the biological mechanisms of health and well being with the aim of preventing and or reducing frailty and disability in the elderly

**The Inflammation-Free Diet Plan**  
Monica Reinagel, 2007-05-21 A revolutionary diet to help you lose weight and control disease causing inflammation The Inflammation Free Diet Plan will help you achieve your ideal weight without fad dieting while also reducing pain and allergies slowing the aging process and dramatically reducing your risk for dozens of medical problems This flexible easy to follow program is the ideal nutritional solution for every member of the family At the heart of the program is the revolutionary IF Rating system that for the first time tells you the inflammatory or anti inflammatory effects of all of the foods you eat The IF Rating integrates more than twenty different nutritional factors including essential fatty acids glycemic index vitamins minerals antioxidants and anti inflammatory compounds into a single rating which guides your food choices for the day You no longer have to worry about choosing the right types of carbs or fats or even counting calories the IF Rating

combines all those factors into a simple holistic system for healthy eating And unlike other programs that focus only on carbohydrates or fats the IF Rating system also shows you which proteins are healthy and which provoke inflammation It all adds up to a uniquely healthful easy to follow diet plan that fights illness and promotes weight loss The Inflammation Free Diet Plan gives you IF Ratings for more than 1 500 common foods listed both alphabetically and by categories such as Breakfast Cereals and Meats Self assessments for measuring your level of systemic inflammation A choice of three customizable eating plans Preventative Maintenance Therapeutic and Accelerated Weight Loss Three weeks worth of daily meal plans and dozens of delicious anti inflammatory recipes With The Inflammation Free Diet Plan you ll learn how to stop the silent enemy in its tracks and get started on the road to a longer healthier more vibrant life today [Dietary Interventions and Nutritional Factors in the Prevention of Allergic Diseases in Infants](#) Gianvincenzo Zuccotti,Enza D’Auria,Diego G.
