Jens Dennig, *To tea or not to tea*. That is no question. A tea collector and addict spills the leaves. The author is a vegetarian, non-smoker, and teetotaler but should one not have at least one vice? Brutally honest and in a comprehensive way, he reveals his experience with his addiction to finding increasingly better teas for the daily dose and the constantly growing collection. But that is not all; he also freely discloses how he treats the most tender leaves and buds with boiling water, some of which is even bubbling. In addition to providing personal experiences, the book also serves as a thorough guide and reference book covering tea varieties and cultivars, as well as the topics of purchasing, storing, choosing the right water, the various ways of brewing, and the fitting accessories. Furthermore, more than 200 different teas are presented, both world-renowned standards as well as some personal favorites and curiosities. A wealth of photos illustrate the text. *Fresh Cup*, 2010. **Food**

Instagram Emily J. H. Contois, Zenia Kish, 2022-05-31 Winner of the 2023 Association for the Study of Food and Society Book Prize for Edited Volume. *Image by image and hashtag by hashtag*. Instagram has redefined the ways we relate to food. Emily J. H. Contois and Zenia Kish edit contributions that explore the massively popular social media platform as a space for self-identification, influence, transformation, and resistance. Artists and journalists join a wide range of scholars to look at food's connection to Instagram from vantage points as diverse as Hong Kong's camera-centric foodie culture, the platform's long history with feminist eateries, and the photography of Australia's livestock producers. What emerges is a portrait of an arena where people do more than build identities and influence. Users negotiate cultural, social, and economic practices in a place that for all its democratic potential reinforces entrenched dynamics of power. Interdisciplinary in approach and transnational in scope, *Food Instagram* offers general readers and experts alike new perspectives on an important social media space and its impact on a fundamental area of our lives.
