Chicago Dal Cielo:

Chicago dal cielo Antonio Attini, Marcella Colombo, Gianfranco Peroncini, 2002 *The Bible Interpreted by Women in Early Modern Italy: Promoting Dignity and Agency* Erminia Ardissino, 2026-03-27 This volume studies initial attempts by Italian women of the early modern period to assert their dignity and gender equality through skillful interpretation of the Bible. It shows how the holy text represented a means to self-awareness and self-valorization both through the role models of female figures in the New and Old Testaments and because of the authoritativeness of the divine dictate that sanctioned equality of the genders. Organized into three parts: the origins, biblical models, and the worth of women, this book is devoted to the reception, discussion, and use of biblical texts aimed at gender equality. It proves how these Italian women fought for their contested value through careful exegesis that revised readings by Patristic and Scholastic theologians to promote the dignity of their gender. There is an evident desire to communicate this new consciousness in order to encourage their female readers to exercise their right to equality and self-determination, allowing them to be agents in their own lives. *The Bible Interpreted by Women in Early Modern Italy* speaks to a large potential readership; it is indispensable for scholars of early modern Europe and more broadly for scholars and readers looking to better understand the evolution of women's thinking on gender. It is meant to be accessible to non-specialists too: readers curious about the history of women, the Italian Renaissance, religious history, and biblical interpretation. The book offers a novel and much-needed fresh approach to women and gender studies in early modern Europe, focusing on the intersection of gender awareness with devotional and religious writing.

The matter of miracles Helen Hills, 2021-02-02 This book investigates baroque architecture through the lens of San Gennaro's miraculously liquefying blood in Naples. This vantage point allows a bracing and thoroughly original rethink of the power of baroque relics and reliquaries. It shows how a focus on miracles produces original interpretations of architecture, sanctity, and place, which will engage architectural historians everywhere. The matter of the baroque miracle extends into a rigorous engagement with natural history, telluric philosophy, new materialism theory, and philosophy. The study will transform our understanding of baroque art and architecture, sanctity, and Naples. Bristling with new archival materials and historical insights, this study lifts the baroque from its previous marginalisation to engage fiercely with materiality and potentiality, and thus unleash baroque art and architecture as productive and transformational. Gender, Honor, and Charity in Late Renaissance Florence Philip Gavitt, 2011-08-22 This book examines the important social role of charitable institutions for women and children in late Renaissance Florence. Wars, social unrest, disease, and growing economic inequality on the Italian peninsula displaced hundreds of thousands of families during this period. In order to handle the social crises generated by war, competition for social position, and the abandonment of children, a series of private and public initiatives expanded existing charitable institutions and founded new ones. Philip Gavitt's research reveals the important role played by lineage ideology among Florence's elites in the use and manipulation of these charitable institutions in the often futile

pursuit of economic and social stability Considering families of all social levels he argues that the pursuit of family wealth and prestige often worked at cross purposes with the survival of the very families it was supposed to preserve **Who's who in Opera** Maria F. explores Italy as a text where ecology and imagination meet Examining cases where justice society and politics interlace with stories of land and life pollution and redemption the book argues that literature art and criticism are able to transform the unexpressed voices of these suffering worlds into stories of resistance and practices of liberation *FF.*,2000 *Il nuovo vangelo; l'abolizione della neutralità per la pace universale perenne* Luigi Carnovale,1927 **Rassegna contemporanea** Ercole Rivalta,1913 *Annali dello spiritismo in Italia* Teofilo Coreni,1894 **Annali dello spiritismo in Italia** ,1894

Home Away from Home Richard B. McKenzie,2009 For most people the word orphanage conjures up images of poor little Oliver Twist pleading for more gruel Many are convinced that the history of orphanages is a social welfare record of total devastation to the lives of the children who grew up in them Indeed many of the scholars who contributed to *Home Away From Home* began their research with the conventional negative view of orphanages But they arrived at far more balanced assessments of the historical record while the orphanages studied were not perfect they were often good solutions to dire conditions for children The future of America s most vulnerable citizens is on the line says Richard B McKenzie the editor of this volume Today s government run child welfare system is detrimental to tens of thousands of children Foster care intended as a temporary solution has turned into permanent but inadequate care for many While adoption is a solution for some children others are difficult to place or legally unavailable for permanent placement In re examining the surprising success of orphanages in the past *Home Away From Home* highlights the great value of providing a truly stable environment for youngsters and it explains how orphanages might again be a powerfully beneficial social institution *Il Messaggero della salute* ,1927
