El circo y el cinematógrafo* Juan Felipe Leal,Eduardo Barraza,2009-08-01 Entre 1870 y 1930 el circo fue el espectáculo más atractivo y popular en México A diferencia de otras diversiones públicas sorprendió y deleitó a las familias ricas medianas y pobres Las compañías de circo rompían con la rutina diaria del espectador con no pues realizaban proezas y desplegaban habilidades extraordinarias presentaban a hombres que saltaban 16 caballos en fila devoraban fuego se elevaban en globos aerostáticos eran lanzados por un cañón o bien mostraban a mujeres envueltas en serpientes a elefantes que giraban 360 grados parados sobre una sola de sus patas a osos montados en bicicletas y en fin a seres temerarios que caminaban en el filo de un alambre a doce metros de altura bajo el techo de una carpa sobre la cúpula de una iglesia o sobre el mismo Paso del Niágara Pero a la vuelta del siglo diecinueve el circo perdió importancia en favor del cine que se convirtió en el espectáculo por excelencia en la primera mitad del siglo veinte El presente libro de Juan Felipe Leal evidencia con gran erudición el desplazamiento gradual de los cuadros vivos propios del primer entretenimiento por los cuadros virtuales inherentes al segundo El cinematógrafo se introdujo en los circos de México y convivió con actos de personajes que poseían tan sólo su cuerpo o si acaso algún instrumento anexo para crear momentos mágicos seres reacios a las formas de vida sedentaria y a las reglas que la religión o el Estado establecían sobre lo que los mortales debían hacer con su físico En este contexto cultural e histórico el cine de los orígenes asimiló algunas de las prácticas del espectáculo circense las adaptó a sus necesidades y las puso en acto cuando contó con locales de exhibición propios A la vez el circo y sus personajes se convirtieron en protagonistas del cine En 1900 Carlos Mongrand filmó la vista Miss Muller trapecista y Miss Florence del Circo Orrin en 1904 Salvador Toscano rodó la cinta Gimnastas excéntricos celebres artistas del Circo Orrin trabajando en el trapecio y en su triple barra fija y en 1908 y 1911 camarógrafos anónimos tomaron las películas Acto cómico por Bell y Martinetti y Saltarines mexicanos respectivamente Resumiendo esta obra puede leerse con gran placer tanto por su redacción amena cuanto por su extraordinaria aportación de imágenes inéditas producto de

una amplia investigación iconográfica. Entre sus 221 ilustraciones se encuentran algunas que ayudan a entender la dimensión verdaderamente colosal que el espectáculo circense tuvo entre aquellos mexicanos.
