Feinberg,Laura Niada-Avshalom,Brigit Toebes,2017-10-02 The book deals with the complicated relationships between national security and human rights and between public health and human rights Its premise is the fact that national security and public health are both included in human rights instruments as exceptions to the human rights therein sanctioned yet they can arguably be considered as human rights themselves and be equally valuable The book therefore asks to what extent the protection of the individual could or should be overridden to enable the protection of the national security or public health of the general public Both practice and case law have shown that human rights risk being set aside when they clash with the protection of national security or public health Through theoretical analysis and practical examples the book addresses the conflicts that arise when the concepts of national security and public health are used and abused and other

rights including freedom of speech procedural freedoms individual health are violated as a consequence It provides many interesting findings on the values that states are ready to protect and forego to ensure their safety which can contribute to the ongoing debate on the protection of human rights This book was originally published as a special issue of The International Journal of Human Rights *The Emerald Handbook of Appearance in the Workplace* Adelina Broadbridge,2023-11-27 The first of its kind in addressing appearance and careers with varying approaches and across a diverse range of concepts this Handbook provides an essential overview of the unspoken impact that personal presentation and assumptions can have on how employees are perceived and ultimately progress in their careers **Building Trust in the Generative Artificial Intelligence Era** Joanna Paliszkiewicz,Jerzy Gołuchowski,Magdalen Mądra-Sawicka,Kuanchin Chen,2025-06-27 In an era where generative artificial intelligence AI is reshaping industries and daily life trust has become a cornerstone for its successful adoption and application Building Trust in the Generative Artificial Intelligence Era Technology Challenges and Innovations explores how trust can be built maintained and evaluated in a world increasingly reliant on AI technologies Designed to be accessible to a broad audience thi book blends theoretical insights with practical approaches offering readers a comprehensive understanding of the topic This book is divided into three parts The first part examines the foundations of trust in generative AI highlighting trends and ethical challenges such as greenwashing and remote work dynamics The second part provides actionable frameworks and tools for assessing and enhancing trust focusing on topics like cybersecurity transparency and explainability The final section presents global case studies exploring university students perceptions of ChatGPT generative AI s applications in European agriculture and its transformative impact on financial systems By addressing both the opportunities and risks of generative AI this book delivers groundbreaking insights for academics professionals and policymakers worldwide It emphasizes practical solutions ensuring readers gain the knowledge needed to navigate the evolving technological landscape and foster trust in transformative AI systems Business Cases in Ethical Focus Fritz Allhoff,Alexander Sager,2019-12-06 Business Cases in Ethical Focus is a new collection of in depth case studies from around the world covering all major areas of business ethics Cases address a broad range of topics such as the ethics of entrepreneurship and finance the challenges that diversity raises for business and whistleblowing The cases are provocative yet complex conveying the difficulty of moral dilemmas and the potential for reasonable disagreement Annual Report of the American Bar Association American Bar Association,2010 *Current Law Index* ,2001 **Media Sustainability Index** ,2006 The development of sustainable media in Cover *Litigation News* ,2000 *Cases in Business Ethics* David J.
