Everyday Ayurveda Bhaswati Bhattacharya,2015-09-10 Time is scarce and precious in today s world and we seek solutions that are quick While allopathic medicine tends to focus on the management of disease the ancient study of Ayurveda provides us with holistic knowledge for preventing disease and eliminating its root cause Dr Bhaswati Bhattacharya takes you through a day in the life of Ayurvedic living *Everyday Ayurveda* Bhaswati Bhattacharya,Abhay Deol,2015 The author explains the logic behind the changes she recommends and how they benefit us *Globalising Everyday Consumption in India* Bhaswati Bhattacharya,Henrike Donner,2021-07-21 This book brings together historical and ethnographic perspectives on Indian consumer identities Through an in depth analysis of local regional and national histories of marketing regulatory bodies public and domestic practices this interdisciplinary volume charts the emergence of Indian consumer society and discusses commodity consumption as a main feature of Indian modernity Nationalist discourse was shaped by moral struggles over consumption patterns that became a hallmark of middle class identity But a number of chapters demonstrate how a wide range of social strata were targeted as markets for everyday commodities associated with global lifestyles early on A section of the book illustrates how a new group of professionals engaged in advertising trying to create a market shaped tastes and discourses and how campaigns provided a range of consumers with guidance on modern lifestyles Chapters discussing advertisements for consumables like coffee and cooking oil show these to be part of new public cultures The ethnographic chapters focus on contemporary practices and consumption as a main marker of class caste and community Throughout the book consumption is shown to determine communal identities but some chapters also highlight how it reshapes intimate relationships The chapters explore the middle class family microcredit schemes and metropolitan youth cultures as sites in which consumer citizenship is realised The book will be of interest to readers from a range of disciplines including anthropology history geography sociology South Asian studies and visual cultures **Love Stories from the Mahabharata** Subodha Ghosha,2005 Erotic in style and content this collection unearths the forgotten and lesser known tales of love from the great epic The narrative is sensuous and often sensual in detail pulsating with the blood and throb of bodies that breath in unison in a world particularized by its own mores Parikshit and Sushobhana Agni and Svaha Agastya and Lopamudra and many more lovelorn couples take the reader on a journey through the crosscurrents of physical desire and psychic union Bhaswati by Satananda Śātānanda,1917 **Koyemsan of the Andamans** Rothin Sinha,2022-07-12 It s the summer vacation Pikoo and Mon are with their grandparents in Visakhapatnam On the beach they chance upon a bottle carrying a mysterious message Soon smugglers kidnappers and gangsters are after them In answer to their questions their brigadier Grandpa begins telling them about KOYEMSAN and the Andamans and how he became a friend for the good and a nemesis for the bad and the evil **Urban Drought** Bhaswati Ray,Rajib Shaw,2018-12-30 This book presents water insecurity issues in urban areas while developing a water security index and explores the innovative

approaches to water development and management with examples from Asian cities The urban water crisis is a global phenomenon but it is more obvious in the megacities of the developing world Urban drought although not a familiar term will pose a significant threat to humankind in the near future especially in the context of increasing population in cities Many cities are already unable to provide safe clean water for their citizens Some of the world's largest cities depend heavily on groundwater for their water supply It is unlikely that dependence on aquifers which take many years to recharge will be sustainable As urban populations grow water use will need to shift from agriculture to municipal and industrial uses making decisions about allocating between different sectors difficult Inefficient water use practices by households and industries fragmented management of water between sectors and institutions climate induced water shortages environmental degradation of water sources and inadequate use of alternate sources are also issues of major concern Despite recent advances in the literature there exists a considerable gap in attempting an integrated water resource management approach Covering all aspects of urban drought and water insecurity this book is a valuable resource for students researchers academics policy makers and development practitioners
