Eurofighter Plans:

The Week in Germany, 1996 *Europe Confronts Terrorism* Karin Von Hippel, 2005-08-18 Europe Confronts Terrorism examines the institutional political security and reforms that have taken place in Europe since the catastrophic terrorist attacks in the United States in 2001 The tragic attacks in Madrid on 11 March 2004 to date the worst terror attack on European soil demonstrated that Europe was also a target and emphasized the necessity of decisively defeating the al Qaeda organization movement and network Europe undertook a number of reforms not only as a response to the terror attacks US unilateralism and individual country concerns about becoming the next target but also as part of a process that had been underway since the 1970s *The Arms Production Dilemma* Randall Forsberg, 1994 The studies show how military strategy planned forces and the age of systems in the current inventory affect the domestic demand for new production how the recent drop in domestic demand affects arms industries and the extent to which governments and firms in the arms producing nations are turning to exports to sustain the industries In the shrinking arms market of the post Cold War era countries with advanced arms industries face difficult choices concerning force size arms production arms export and defense industrial capacity This book explores the links among these issues through a detailed study of the combat aircraft industries in the United States Russia Britain France Germany Italy and Sweden the seven countries that develop produce and export all of the world's technologically advanced weapon systems The studies show how military strategy planned forces and the age of systems in the current inventory affect the domestic demand for new production how the recent drop in domestic demand affects arms industries and the extent to which governments and firms in the arms producing nations are turning to exports to sustain the industries Stunning changes in Russia's combat aircraft forces industry and strategy are detailed here for the first time as are expected future Russian combat aircraft exports to China Newly compiled data also show that in the United States and Russia and globally arms production for export will exceed production for domestic use for the first time in history starting in 1995 Arms production is thus increasingly dominated by commercial rather than security interests Ultimately at issue is whether governments will exploit the opportunity offered by the dramatic post Cold War contraction of the world arms market to reduce their armed forces and constrain international arms trade while shrinking the arms industry or keep pushing arms exports that generate new threats and justify larger armed forces more arms production and bigger arms industries **Ministry of Defence, Major Projects Report 2003, Forty-Third Report of Session 2003-04. , Report, Together with Formal Minutes, Oral and Written Evidence** Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2004 The Major Projects Report 2003 provides information on progress made by the Ministry of Defence in procuring major defence equipment against cost time and technical performance targets It covers 30 projects split according to Smart Acquisition principles between the 20 largest projects on which the main investment decision has been taken and the 10 largest projects yet to reach that point For the 20 largest projects costs are forecast to

have increased by 3.1 billion in the last year and are now 6.1 per cent over their approved costs. Difficulties on four older projects which predate the introduction of Smart Acquisition account for the majority of cost and time overruns. Following on from a NAO report on this topic HCP 195 session 2003/04 ISBN 0102926581 published in January 2004 the Committee's report examines four main issues: the impact of the large cost overruns and delays; departmental risk management; ways of developing a more constructive relationship between the Department and industry; and lessons that need to be learned to avoid such poor procurement performance being repeated in future.
