**Architect's Legal Handbook** Anthony Speaight, Matthew Thorne, 2021 The Architect's Legal Handbook is the most widely used reference on the law for practicing architects and the established textbook on law for architectural students Since the last edition of this book in 2010 the legal landscape in which architecture is practised has changed significantly the long standing procurement model with an architect as contract administrator has been challenged by the growing popularity of design and build contracts contract notices in place of certificates and novation of architect's duties The tenth edition features all the latest developments in the law which affect an architect's work as well as providing comprehensive coverage of relevant UK law topics Key highlights of this edition include an overview of the legal environment including contract tort and land law analysis of the statutory framework including planning law health and safety construction legislation and building regulations in the post Grenfell legal landscape procurement and the major industry construction contract forms building dispute resolution including litigation arbitration adjudication and mediation key fields for the architect in practice including architects registration and professional conduct contracts with clients and collateral warranties liability in negligence and insurance entirely new chapters on various standard form contracts architects responsibility for the work of others disciplinary proceedings and data protection tables of cases legislation statutes and statutory instruments give a full overview of references cited in the text The Architect's Legal Handbook is the essential legal reference work for all architects and students of architecture

**Architect's Legal Handbook** Anthony Speaight, Gregory Stone (MA.), 1990 *The Architect's Legal Handbook* Edward Jenkins, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1889 edition Excerpt CHAPTER XV 116 Dilapidations Voluntary And Permissive Waste 117 Liability of tenants for life 118 Liability of tenants for years 119 Accidental fire 120 Covenants to repair 121 Measure of damages 122 The right to light 123 The right to prospect 124 Party walls We have had grave doubts as to the advisability of offering any remarks on the three subjects noticed in the following chapter Dilapidations Ancient Lights and Party Walls We have been assured that questions on one or other of these points frequently occur and that consequently a few remarks on them would be of service to Architects That such questions do constantly arise we feel sure but we are not so sure that we can in the space of the present work impart to our readers any profitable knowledge on the subject It was necessary for the comprehension of the special subject treated in this little work that we should first endeavour to impart to our readers some instruction in the elementary principles of contracts generally but that instruction would hardly fit them for the comprehension of the three subjects above mentioned and indeed to properly introduce them a separate treatise would be

necessary in order to effect any good practical purpose On the other hand such a book would of necessity be of too technical a character for the ordinary unprofessional reader However as we are assured that a few remarks would be acceptable we offer the following which we have endeavoured to make as general as possible for what they may be worth Those on dilapidations we have taken from Smith s Landlord and Tenant and for those on ancient rights and party walls we are mainly indebted to Gale on Easements n6 The technical term for AJ Legal Handbook Anthony Speaight, Gregory Stone, 1985
