*Artificial Intelligence In Highway Location And Alignment Optimization: Applications Of Genetic Algorithms In Searching, Evaluating, And Optimizing Highway Location And Alignments* Min-wook Kang, Paul Schonfeld, 2020-08-14 This monograph provides a comprehensive overview of methods for searching evaluating and optimizing highway location and alignments using genetic algorithms GAs a powerful Artificial Intelligence AI technique It presents a two level programming structure to deal with the effects of varying highway location on traffic level changes in surrounding road networks within the highway location search and alignment optimization process In addition the proposed method evaluates environmental impacts as well as all relevant highway costs associated with its construction operation and maintenance The monograph first covers various search methods relevant cost functions constraints computational efficiency and solution quality issues arising from optimizing the highway alignment optimization HAO problem It then focuses on applications of a special purpose GA in the HAO problem where numerous highway alignments are generated and evaluated and finally the best ones are selected based on costs traffic impacts safety energy and environmental considerations A review of other promising optimization methods for the HAO problem is also provided in this monograph

**Artificial Intelligence** David L. Poole, Alan K.

Mackworth, 2010-04-19 Recent decades have witnessed the emergence of artificial intelligence as a serious science and engineering discipline This textbook aimed at junior to senior undergraduate students and first year graduate students presents artificial intelligence AI using a coherent framework to study the design of intelligent computational agents By showing how basic approaches fit into a multidimensional design space readers can learn the fundamentals without losing sight of the bigger picture The book balances theory and experiment showing how to link them intimately together and develops the science of AI together with its engineering applications Although structured as a textbook the book's straightforward self contained style will also appeal to a wide audience of professionals researchers and independent learners AI is a rapidly developing field this book encapsulates the latest results without being exhaustive and encyclopedic The text is supported by an online learning environment AIspace <http://aispace.org> so that students can experiment with the main AI algorithms plus problems animations lecture slides and a knowledge representation system Allog for experimentation and problem solving

**Commonsense Reasoning** Erik T. Mueller, 2014-11-11 To endow computers with common sense is one of the major long term goals of artificial intelligence research One approach to this problem is to formalize commonsense reasoning using mathematical logic Commonsense Reasoning An Event Calculus Based Approach is a detailed high level reference on logic based commonsense reasoning It uses the event calculus a highly powerful and usable tool for commonsense reasoning which Erik Mueller demonstrates as the most effective tool for the broadest range of applications He provides an up to date work promoting the use of the event calculus for commonsense reasoning and bringing into one place information scattered across many books and papers Mueller shares the knowledge gained in using

the event calculus and extends the literature with detailed event calculus solutions that span many areas of the commonsense world The Second Edition features new chapters on commonsense reasoning using unstructured information including the Watson system commonsense reasoning using answer set programming and techniques for acquisition of commonsense knowledge including crowdsourcing Understand techniques for automated commonsense reasoning Incorporate commonsense reasoning into software solutions Acquire a broad understanding of the field of commonsense reasoning Gain comprehensive knowledge of the human capacity for commonsense reasoning Intelligent Information Processing III K. Shimohara,D. Feng,2007-11-14 As the world proceeds quickly into the Information Age it encounters both successes and challenges and it is well recognized that Intelligent Information Processing provides the key to the Information Age and to mastering many of these challenges Intelligent Information Processing supports the most advanced productive tools that are said to be able to change human life and the world itself However the path is never a straight one and every new technology brings with it a spate of new research problems to be tackled by researchers As such the demand for Information Processing research is ever increasing This book presents the proceedings of the 4th IFIP International Conference on Intelligent Information Processing This conference provides a forum for engineers and scientists in academia university and industry to present their latest research findings in all aspects of Intelligent Information Processing **AI, Sensors and Robotics in Plant Phenotyping and Precision Agriculture, Volume II** Yongliang Qiao,João Valente,Yu Jiang,Zhao Zhang,Dongjian He,Daobilige Su,2023-07-03 **Subject Guide to Books in Print** ,1991 **Proceedings of the IEEE/IAFE/INFORMS 1998 Conference on Computational Intelligence for Financial Engineering (CIFEr)** IEEE Neural Networks Council,1998 These proceedings detail computer technology and the contemporary application of advanced mathematical techniques and concepts to financial and investment problems There is a focus on solving problems caused by the increasing complexity and size of modern financial systems **Applications of Declarative Programming and Knowledge Management** Salvador Abreu,Dietmar Seipel,2011-04-20 This book constitutes the thoroughly refereed post conference proceedings of the 18th International Conference on Applications of Declarative Programming and Knowledge Management INAP 2009 held in vora Portugal in November 2009 The 12 revised full papers presented together with 2 invited talks were carefully reviewed and selected during two rounds of reviewing and improvement The conference comprehensively covers the impact of programmable logic solvers in the internet society its underlying technologies and leading edge applications in industry commerce government and societal services The topics of the selected papers concentrate on three currently important fields foundations and extensions of logic programming databases and query languages declarative programming with logic languages and applications thereof *Energy Research Abstracts* ,1989 **Energy Research Abstracts** ,1989 Proceedings of the ...
