Tischler, Phillip Whitten, David E. Hunter, 1986 **The Descent of Artificial Intelligence** Kevin Padraic Donnelly, 2024-07-15 The idea that a new technology could challenge human intelligence is as old as the warning from Socrates and Plato that written language eroded memory With the emergence of generative artificial intelligence programs we find ourselves once again debating how a new technology might influence human thought and behavior Researchers software developers and visionary tech writers even imagine an AI that will equal or surpass human intelligence adding to a sense of technological determinism where humanity is inexorably shaped by powerful new machines But among the hundreds of essays books and movies that approach the question of AI few have asked how exactly scientists and philosophers have codified human thought and behavior Rather than focusing on technical contributions in machine building *The Descent of Artificial Intelligence* explores a more diverse cast of thinkers who helped to imagine the very kind of human being that might be challenged by a machine Kevin Padraic Donnelly argues that what we often think of as the goal of AI has in fact been shaped by forgotten and discredited theories about people and human nature as much as it has been by scientific discoveries mathematical advances and novel technologies By looking at the development

of artificial intelligence through the lens of social thought Donnelly deflates the image of artificial intelligence as a technological monolith and reminds readers that we can control the narratives about ourselves [Introduction to Sociology \(with InfoTrac\)](#) Henry L. talk shows is based on the principles of the Recovery Movement among whose tenets are that care for one's self is the highest virtue and that psychological wounds that endure from childhood into adulthood create troublesome and addictive behaviors or codependency. The only cure is to join a therapeutic 12-step group.

BOOK JACKET Baring Our Souls probes the roots of the genre in the religion of recovery and holds both up to the scrutiny of sociological inquiry. This will be a welcome supplementary text in courses in social problems, media, and civil religion.

BOOK JACKET Union in Separation Autori Vari, 2016-01-14T00:00:00+01:00. Union in Separation presents a series of case studies on diasporic groups in the late medieval and early modern Mediterranean and Black Sea regions. It explores how Armenian, Byzantine, Greek, Florentine, Genoese, Hospitaller, Jewish, Mamluk, and Venetian communities, characterized by diasporic identities and inserted into local contexts, navigated religious and socio-ethnic boundaries as well as other categories of difference. The volume draws on a wide range of historical and social scientific methods and offers new perspectives on the arbitration of difference in the wider eastern Mediterranean, from Tana to Cairo and Marseille to Isfahan, prior to the emergence of nation-states. It provides not only an analytical toolbox for historical diaspora studies but also reveals how, under the looming threat of crusade and within the daily routines of trade, diasporic groups and their hosts negotiated modes of coexistence that oscillated between cooperation and conflict, integration and rejection, union and separation.
