"The biography of choice. . . . Newton the man emerges from the shadows."—*The New York Times Book Review*

Isaac Newton James Gleick

S Marginson

Isaac Newton James Gleick:

Isaac Newton James Gleick, 2003 James Gleick has long been fascinated by the making of science how ideas order visible appearances how equations can give meaning to molecular and stellar phenomena how theories can transform what we see In *Chaos* he chronicled the emergence of a new way of looking at dynamic systems in *Genius* he portrayed the wondrous dimensions of Richard Feynman's mind Now in *Isaac Newton* he gives us the story of the scientist who above all others embodied humanity's quest to unveil the hidden forces that constitute the physical world In this original sweeping and intimate biography Gleick moves between a comprehensive historical portrait and a dramatic focus on Newton's significant letters and unpublished notebooks to illuminate the real importance of his work in physics in optics and in calculus He makes us see the old intuitive alchemical universe out of which Newton's mathematics first arose and shows us how Newton's ideas have altered all forms of understanding from history to philosophy And he gives us a moving account of the conflicting impulses that pulled at this man's heart his quiet longings his rage his secrecy the extraordinary subtleties of a personality that were mirrored in the invisible forces he first identified as the building blocks of science More than biography more than history more than science *Isaac Newton* tells us how through the mind of one man we have come to know our place in the cosmos

Summary of James Gleick's Isaac Newton Everest Media, 2022-07-02T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Woolsthorpe farmhouse was the home of Newton's ancestors for just twenty years It was a manor and the fatherless boy was its lord with seigniorial authority over a handful of tenant farmers in nearby cottages 2 When Isaac was old enough he began to walk to the village dame school where he learned to read and study the Bible He was small for his age lonely and abandoned He often wished his stepfather dead and his mother as well 3 Isaac was sent to boarding school when he was ten in 1653 He slept in the garret and carved his name into the boards He was lonely anxious and competitive He despaired He wanted to make an end 4 The sixteenth century was a time of information surfeit People heard new rumors every day and tried to make sense of them all Burton tried to assemble all previous knowledge into a single book [The Human Touch](#) Michael Frayn, 2008-01-22 What do we really know What are we in relation to the world around us Here the acclaimed playwright and novelist takes on the great questions of his career and of our lives Humankind scientists agree is an insignificant speck in the impersonal vastness of the universe But what would that universe be like if we were not here to say something about it Would there be numbers if there were no one to count them Would the universe even be vast without the fact of our smallness to give it scale With wit charm and brilliance this epic work of philosophy sets out to make sense of our place in the scheme of things Our contact with the world around us Michael Frayn shows is always fleeting and indeterminate yet we have nevertheless had to fashion a comprehensible universe in which action is possible But how do we distinguish our subjective experience from what is objectively true and knowable Surveying the spectrum of philosophical concerns from the existence of space and time to relativity and language

Frayn attempts to resolve what he calls the oldest mystery the world is what we make of it In which case though what are we All of Frayn s novels and plays have grappled with these essential questions in this book he confronts them head on

The Physics of Superheroes James Kakalios,2005-09-29 James Kakalios explores the scientific plausibility of the powers and feats of the most famous superheroes and discovers that in many cases the comic writers got their science surprisingly right Along the way he provides an engaging and witty commentary while introducing the lay reader to both classic and cutting edge concepts in physics including What Superman s strength can tell us about the Newtonian physics of force mass and acceleration How Iceman s and Storm s powers illustrate the principles of thermal dynamics The physics behind the death of Spider Man s girlfriend Gwen Stacy Why physics professors gone bad are the most dangerous evil geniuses

Dismantling the Master's Clock Rasheedah Phillips,2025-01-28 A radical new treatise on time quantum physics and racial justice from world renowned artist and advocate Rasheedah Phillips of Black Quantum Futurism Dismantling the Master s Clock is a groundbreaking debut work that synthesizes philosophy and the history of science with Black cultural traditions speculative fiction and Phillips s own art practice to argue for a more equitable access to time and the future While some processes like aging birth or car crashes seem to occur in only one direction of time by the apparent logic of the universe human consciousness should experience time both backwards and forwards Though past and present organize our lives like unarguable fact the physicists who study time are much less certain Linear time is an illusion explains Rasheedah Phillips a construct even science contests It is based more on Western history and systems of social order than on nature or the variety of human existence Both indigenous African conceptions of time and quantum physics recognize how the past present and future act upon and modify each other Afrodiasporic identity is itself a time traveling phenomenon in which the past is always present Phillips unfurls time s legacy of racial oppression from maritime navigation for colonial expansion and the timekeeping methods of plantation overseers to the establishment of Greenwich Mean Time and the Western Scramble for Africa time has been a homogenizing project of the last few centuries Phillips unsettles dominant assumptions of space and time highlighting how Black communities have long subverted these through alternative temporal frameworks

The Best American Science Writing 2005 Alan Lightman,Jesse Cohen,2005-09-06 Together these twenty seven articles on a wide range of today s most current topics in science from Oliver Sacks James Gleick Atul Gawande and Natalie Angier among others represent the full spectrum of scientific writing proving once again that good science writing is evidently plentiful

American ISAAC NEWTON ,1958 New Scientist and Science Journal ,2004 Isaac Newton James Gleick,2006-03 Here is the story of the scientist who embodied humanity s quest to unveil the hidden forces that constitute the physical world Gleick moves between a historical portrait a focus on Newton s letters unpublished notebooks to illuminate the real importance of his work in physics in optics in calculus We see the old intuitive alchemical universe out of which Newton s mathematics first arose shows us how Newton s ideas have altered all forms of understanding from history to philosophy And

he gives us a moving account of the conflicting impulses that pulled at this man's heart his quiet longings his rage his secrecy the subtleties of a personality that were mirrored in the invisible forces he first identified as the building blocks of science

Illus The Common Review ,2005 **Seeing Further** Bill Bryson,2010-11-09 Bryson is as amusing as ever As a celebration of 350 years of modern science Seeing Further it is a worthy tribute The Economist In Seeing Further New York Times bestseller Bill Bryson takes readers on a guided tour through the great discoveries feuds and personalities of modern science Already a major bestseller in the UK Seeing Further tells the fascinating story of science and the Royal Society with Bill Bryson's trademark wit and intelligence and contributions from a host of well known scientists and science fiction writers including Richard Dawkins Neal Stephenson James Gleick and Margret Atwood It is a delightful literary treat from the acclaimed author who previous explored the current state of scientific knowledge in his phenomenally popular book A Short History of Nearly Everything *Best American Science Writing* ,2005 *The Objective Standard* ,2008 *Science* John Michels (Journalist),2003 **The Eighteenth Century** American Society for Eighteenth-Century Studies,Jim Springer Borck,2006-12 This 17th volume from the series of bibliographies of the 18th century is divided into sections on printing and bibliographic studies historical social and economic studies philosophy science and religion the fine arts literary studies and individual authors **Braille Book Review** ,2004 **The Real Story** Sarah Statz Cords,Robert Burgin,2006-03-30 Here is your road map to the vast and previously uncharted terrain of recreational nonfiction After defining the genre and discussing its unique characteristics and appeals the author describes more than 500 popular nonfiction titles and organizes them according to genre Everything from true adventure true crime and travel narratives to investigative nonfiction environmental writing and life stories Genres are subdivided into subgenres and popular themes such as micro histories deep science and humorous memoirs Focus is on the best titles published within the last decade with key classics and benchmark titles also cited For each title you'll find a short list of nonfiction read-alikes and fiction read-alikes are listed for each genre

Chronicle of the Pulitzer Prizes for Biography Heinz Dietrich Fischer,Erika J. Fischer,2006 The School of Journalism at Columbia University has awarded the Pulitzer Prize since 1917 Nowadays there are prizes in 21 categories from the fields of journalism literature and music The Pulitzer Prize Archive presents the history of this award from its beginnings to the present In parts A to E the awarding of the prize in each category is documented commented and arranged chronologically Part F covers the history of the prize biographically and bibliographically Part G provides the background to the decisions

The Polysyllabic Spree Nick Hornby,2004 A hilarious and true account of one man's struggle with the monthly tide of the books he's bought and the books he's been meaning to read **The Literary Review** ,2003
