

Refs	Requirements	What to look for and how	Comply	Auditor notes and evidence
------	--------------	--------------------------	--------	----------------------------

This is also an ISO 9001:2015 compliance checklist. The requirements for each process are paraphrased from ISO 9001 and there is a reference to the corresponding clause of the standard (first column). The checklist is carefully designed to completely cover all requirements of the ISO 9001 standard. If, when customizing the Process Map, you delete or add processes, make sure that you re-associate the corresponding clauses in ISO 9001 and don't leave any out (e.g., maintain completeness of the checklist in regard to compliance with ISO 9001).

You should customize this checklist on three levels: 1) align it with any changes in the Process Map, 2) further develop the "Requirements" column to add other relevant requirements (if any), and 3) edit the "What to look for and how" column to make it appropriate to the products, operations, practices and issues that are relevant in your company. The third item in particular will require the most customizing.
