***Discourse in Old Norse Literature* Eric Shane Bryan, 2021** The vast and diverse corpus of Old Norse literature preserves the language spoken not only by the Vikings kings and heroes of medieval Scandinavia but also by outlaws missionaries and farmers Scholars have long recognized that the wealth of verbal exchanges in Old Norse sagas presents the modern reader with the opportunity to speak face to face as it were with these great voices of the past However despite the importance of verbal exchanges in the sagas there has been no book length study of discourse in Old Norse literature since 1935 This book meets the need for such a study by offering a literary analysis based on the adjacent field of pragmatic linguistics which recognizes that speakers often rely upon cultural situational and interpersonal context to communicate their meaning The resulting context dependent meaning often deviates from the base semantic and syntactical components of an utterance speakers hedge imply deflect to save face or obscure meaning to damage an opponent s self

worth Saga writers this book argues were masters of this type of indirectness in speech It aims therefore to unlock the depth and subtlety of discourse in Old Norse literature and to leave readers with an understanding of how principles of pragmatics were employed throughout the sagas A wide body of Old Norse materials is examined including some of the best examples of slendingas gur sagas of Icelanders such as Brennu Nj ls saga Laxdoela saga and G sla saga S rssonar while also giving due attention to Konungas gur kings sagas fornaldars gur legendary sagas and other literature from the medieval North ERIC SHANE BRYAN is Associate Professor of English at Missouri University of Science and Technology The Power of Words, 2006-01-01 This volume comprises essays in lexicography lexicology and semantics by leading international experts in these fields The contributions cover Old Middle and Present Day English and Scots and specific subjects include medical vocabulary colour lexemes and semantic and pragmatic meaning in terms for politeness money and humour In the area of Old English studies there are articles on kinship terminology and colour lexemes and in Middle English a semantic and syntactic study of the overlapping of the verbs dreden and douten Many of the essays make use of the Historical Thesaurus of English project at the University of Glasgow and pay tribute to its Director Professor Christian Kay e g one article demonstrates how the HTE a project which is at the interface between historical semantics and lexicography may present a rich resource for information about the lexicalization of concepts within our culture such as changing social attitudes in the area of will consent and coercion Other resources such as The Linguistic Atlas of Early Middle English and the Oxford English Dictionary provide a rich source for information on historical lexicography semantics and editing A number of essays concern the Scots language such as an analysis of evaluative terms in modern Scots speech and writing the rich potential of rhyme in Scots and the role of lexicon in th fronting in Glaswegian **Text, Discourse and Corpora** Michael Hoey, Michaela Mahlberg, Michael Stubbs, Wolfgang Teubert, 2007-09-28 Corpus linguistics is often regarded as a methodology in its own right but little attention has been given to the theoretical perspectives from which the subject can be approached The present book contributes to filling this gap Bringing together original contributions by internationally renowned authors the chapters include coverage of the lexical priming theory parole linguistics a four part model of language system and language use and the concept of local textual functions The theoretical arguments are illustrated and complemented by case studies using data from large corpora such as the BNC smaller purpose built corpora and Google searches By presenting theoretical positions in corpus linguistics Text Discourse and Corpora provides an essential overview for advanced undergraduate postgraduate and academic readers *The Representation of Gender-Specific Conversational Behaviour in Informal Talk* Juliane Behm, 2010-03 Examination Thesis from the year 2009 in the subject English Language and Literature Studies Linguistics grade 1 0 University of Rostock Institut f r Anglistik Amerikanistik language English abstract Die vorliegende Examensarbeit setzt sich mit den feministisch linguistischen Ans tzen zur Erkl rung von typisch m nnlichen und weiblichen Gespr chsverhalten auseinander Dazu wird zun chst auf die sprachwissenschaftlichen Disziplinen

der Pragmatik und der Interaktionalen Soziolinguistik die als theoretische Ansätze die Grundlage für die Analyse bilden eingegangen und anschließend die verschiedenen feministischen Theorien Deficit Approach Dominance Approach Difference Approach Doing Gender kritisch beleuchtet Nachdem ausgewählte Merkmale geschlechtsspezifischen Sprachgebrauchs und Gesprächsverhaltens vorgestellt werden erfolgt eine pragmatische Analyse der vier Charaktere aus *Sex and the City* um darzustellen wie die weiblichen Figuren durch ihre Sprache charakterisiert und dem Zuschauer mehr oder weniger typisch weiblich präsentiert werden Dabei soll gezeigt werden wie die Serie mit Geschlechtsstereotypen spielt Hauptaugenmerk der Arbeit ist jedoch die Kritik an der feministischen Linguistik indem aufgezeigt werden soll dass Frauen entgegen der feministischen Meinung m gleicherweise dazu neigen in einem typisch weiblichen Konversationsstil zu kommunizieren sie jedoch vielmehr beide Formen geschlechtsspezifischen Sprachverhaltens anzuwenden nämlich typisch männliches als auch weibliches je nach sozialem Kontext und Situation in der sie sich befinden

Signs, Solidarities, and Sociology Blasco José Sobrinho, 2001 *Signs Solidarities Sociology* addresses the formation and fragmentation of identity in today's postmodern world Informed by the conceptual convergence in the theories of Durkheim Peirce Mead and Lacan this book surveys the range of twentieth century sociology to deconstruct those favored nostrums of subjective meaning personal power and autonomous selfhood that comprise its semantics of agency Revealed beneath this semantic screen is the triad of pragmatic codes premodern affiliation modern calibration and postmodern globalization that govern the social construction of the self While the ill comprehended confluence of these three signification codes in the present world situation can indeed fragment personal identity their formal structural linkages as shown in this book may inform a truly postmodern globally applicable science of culture

Con/texts of Persuasion Beatriz Penas, Micaela Muñoz, Marta Conejero, 2011 *Con Texts of Persuasion* is a path breaking multidisciplinary body of essays devoted to exploring how discourse literary but also political religious commercial and philosophical draws on strategies from linguistics pragmatics argumentation theory rhetoric and hermeneutics not merely to communicate but to induce recipients to think or to act differently than they might have otherwise Persuasion is context and culture bound a dialogue friendly rhetoric in the hermeneutics of understanding Gadamer whose negation manipulation can serve the ends of propaganda Bend Sinister but it is also a vehicle for circumventing censure burlesque or for providing oratory with intertextual resonance I have a dream An appeal to emotions values and subjectivity persuasion can immerse the reader in a fictional world or it can result from the phonosemantic strategies of poetry and advertising And the ways of persuasion can extend to the situatedness of interpretive context in critical discourse in its ideologically consonant vs dissonant modes An invaluable collection for anyone with an interest in the persuasive powers of textual communication Page 4 of cover

An Introduction to Cognitive Linguistics Friedrich Ungerer,Hans-Jörg Schmid,1996 Cognitive linguists share the belief that language is based on our experience of the world Although scientific in its claims cognitive linguistics appeals to the intuitive feeling that our use of language is related to how we perceive things and situations around us This comprehensive text provides a clear introduction to the major approaches that are guided by these assumptions It is the first text to draw together all the important aspects of both cognitive semantics and syntax and it includes original proposals for a cognitive theory of word formation and cognitive hierarchies An Introduction to Cognitive Linguistics explains the central concepts and the assumptions on which they are based in a clear and logical style tracing their historical roots in linguistics or psychology Chapters consider the mental process of categorization and its result the cognitive categories which influence our use of words the role of metaphor for understanding abstract concepts and analyse attempts to define clause patterns word classes and other aspects of syntax based on general cognitive principles This text also brings together issues which have not originated in cognitive linguistic research but have benefited from being put on a cognitive basis namely iconicity grammaticalization lexical change and language teaching

Correspondence and Dialogue Deborah Sweeney,2001 This book investigates how ancient Egyptians expressed questions requests information and complaints in letters from the Late Ramesside Period Correspondents formulated their contributions in reply to their addressee s letter and or in anticipation of their next thus creating a dialogue over time and space Extracts from earlier letters were often quoted when replying or reacting to them so we can detect how different Egyptians replied to questions and complaints reacted to information agreed to undertake commissions or attempted to avoid them These replies and responses from correspondence are compared and contrasted with the replies to questions requests information and complaints preserved in the summaries of conversations in legal texts and other contemporary non legal documents The final chapter deals with courtesy in ancient Egyptian letter writing exploring how it was maximised and minimised between correspondents of equal or unequal social standing of varying degrees of intimacy and in situations where greater or lesser concessions were required from the addressee
