Reading Classes On Culture And Classism In America:

Reading Classes Barbara Jensen, 2012-05-15 Discussions of class make many Americans uncomfortable This accessible book makes class visible in everyday life Solely identifying political and economic inequalities between classes offers an incomplete picture of class dynamics in America and may not connect with people s lived experiences In *Reading Classes* Barbara Jensen explores the anguish caused by class in our society identifying classism or anti working class prejudice as a central factor in the reproduction of inequality in America Giving voice to the experiences and inner lives of working class people Jensen a community and counseling psychologist provides an in depth psychologically informed examination of how class in America is created and re created through culture with an emphasis on how working and middle class cultures differ and conflict This book is unique in its claim that working class cultures have positive qualities that serve to keep members within them and that can haunt those who leave them behind Through both autobiographical reflections on her dual citizenship in the working class and middle class and the life stories of students clients and relatives Jensen brings into focus the clash between the realities of working class life and middle class expectations for working class people Focusing on education she finds that at every point in their personal development and educational history working class children are misunderstood ignored or disrespected by middle class teachers and administrators Education while often hailed as a way to cross classes brings with it its own set of conflicts and internal struggles These problems can lead to a divided self resulting in alienation and suffering for the upwardly mobile student Jensen suggests how to increase awareness of the value of working class cultures to a truly inclusive American society at personal professional and societal levels

[Industrial and Labor Relations Review](#) ,2012-07 *Studies in Latin American Popular Culture* ,1983
[Discovering Reality](#) Sandra G. Harding, Merrill B. Hintikka, 1983-02-28 Are Western epistemology metaphysics

methodology and the philosophy of science grounded only in men's distinctive understandings of themselves, others, and nature. Does this less than human understanding distort our models of reason and of scientific inquiry? In different ways, the papers in this collection explore the evidence for these increasingly reasonable and intriguing questions. They identify how it is distinctively masculine perspectives on masculine experience which have shaped the most fundamental and formal aspects of systematic thought in philosophy and the natural and social sciences, precisely the aspects of thought believed most gender neutral. They show how these understandings ground Aristotle's biology and metaphysics, the very definition of the problems of philosophy in Plato, Descartes, Hobbes, and Rousseau, the adversary method which is the paradigm of philosophic and scientific reasoning, principles of individuation in philosophical ontology and the philosophy of language, individualistic assumptions in psychology, functionalism in sociological and biological theory, evolutionary theory, the methodology of political science, Marxist political economy, and conceptions of objective inquiry in the social and natural sciences. These essays also begin to identify for us the distinctive aspects of women's experience which can provide the resources needed for the creation of a truly human understanding.

Audience: The book will be of interest to those involved in epistemology and philosophy of the natural and social sciences, as well as feminist scholars in philosophy. The work will also be of value for theorists, methodologists, and feminist scholars in the natural and social sciences. Current Index to Journals in Education, 1991

Creating America Jan Cohn, 1989. Before movies, radio, and television challenged the hegemony of the printed word, the Saturday Evening Post was the preeminent vehicle of mass culture in the United States. And to the extent that a mass medium can be the expression of a single individual, this magazine, with a peak circulation of almost three million copies a week, was the expression of its editor, George Horace Lorimer. Cohn shows how Lorimer made the Post into a uniquely powerful magazine that both celebrated and helped form the values of the time. *Subject Guide to Books in Print*, 1991

The Rhetoric of Appropriation Jill McKay Chrobak, 2007 **Ten Percent**, 1980-10 **Mirror Images** Webster Groves Writing Project, 1994. In the midwestern suburb of Webster Groves, Missouri, a team of middle and high school teachers, all female, all but one White, refused to accept the chronic underachievement of African American student writers. *Mirror Images* is their story. Through six years of action research, they realized that instead of trying to fix the kids, they needed to fix some other things: their teaching methods, the ambiance of their classrooms, and their own cultural awareness. The teachers' journey is one of self-reflection, painful at times, as they question, hypothesize, act, analyze results, and ultimately change. Hand in hand with their changes, readers follow the story of Antwan James and Damon, students who were seemingly disengaged from their classrooms, curriculum, and teacher. They change too, becoming involved, active, guiding forces in their English classes. *Mirror Images* offers no recipes, no quick fix solutions. Instead, it presents rich classroom experiences and a process that will help readers see their own hard-to-reach students with new eyes. Along with principles for good writing instruction, the authors explain key strategies for success with dozens of their own lessons and projects. Classroom teachers

as well as instructional and staff development leaders who want to get beyond the standard advice on cultural sensitivity and students at risk must read this book Readers will be challenged as well as inspired by this view into real classrooms through mirrors of race class gender and self
