

APA Style 7th Edition

The American Psychological Association (APA) regulates how academic papers are formatted in many disciplines. The following guidelines are based on the *Publication Manual of the American Psychological Association, Seventh Edition* (2020). For each topic, the corresponding section in the handbook is listed in parentheses:

General Format (*APA Manual* chapter 2)

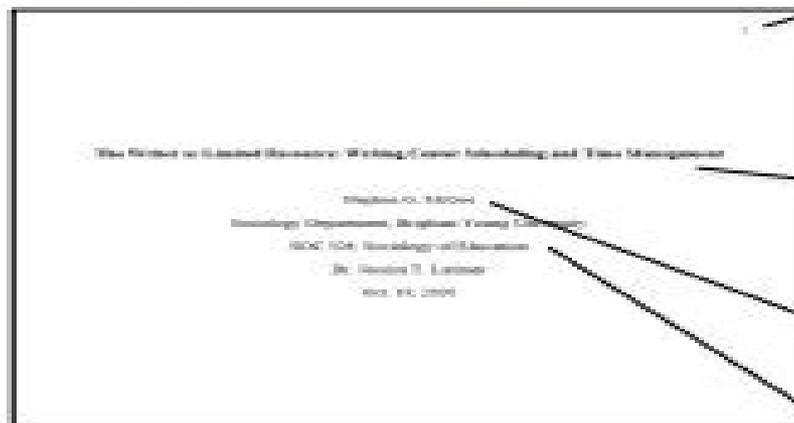

Font (2.19): Clear, standard size (Times New Roman, 12-point font is preferred)

Line Spacing (2.21): Double-spaced, no extra spaces between headings or body paragraphs

Margins (2.22): 1-inch margins on all sides

Title Page (*APA Manual* 2.3–2.7)

Your title page identifies you and announces the topic of the paper and your affiliations.

Page Number (2.18): Use the “Insert Page Number” feature to include numbering flush-right in the header.

Running Head (2.8): Running heads are no longer required unless an instructor requests them or the manuscript is being submitted for publication.

Title (2.4): Bold face the title and center it between the margins in the upper half of the title page (e.g., three or four lines from the top margin). **Note:** You will also include this title on the first page of the body text.

Author Name (Byline) (2.5): Place your name beneath the full title, with an empty line between them. Including your middle initial is preferred.

Author Affiliation (2.6): Give the full name of your institutional affiliation, with the department and university names separated by a comma. The course title, instructor, and assignment due date follow on their own lines.

Optional Abstract (*APA Manual* 2.9)

The purpose of an abstract is to summarize your paper. Generally, an abstract is between 150 and 250 words and is on its own page following the title page. **APA no longer expects abstracts for student papers, but some instructors may still require them.** If required, an abstract should summarize your major points in the same order they are presented in the paper.

Title: Title the page “Abstract” (bold-faced and centered in the same formatting as your paper title).

Body: Begin typing on the next line without indenting. Do not split the abstract into more than one paragraph.

of SF Writer is energetic and witty the advice fresh and contemporary the design ground breaking Almost every major element of SF Writer is new or significantly revised beginning with an organization that removes the barriers between writing and research While most handbooks put the chapters on research in back of the book SF Writer locates these essential strategies up front in Part II Thinking and Research This new arrangement helps writers appreciate better the connection between college research and other essential activities such as Reading Critically and Writing Persuasively also examined in Part II Equally fresh is Part I Working as a Writer which presents writing as a dynamic activity grounded in practical choices and familiar genres Writer also includes an innovative chapter on Evaluating Writing No other handbook in SF Writer s field covers this sensitive but important topic SF Writer breaks new ground too in expanding its coverage of document design and writing for the Web A full section is now devoted to these subjects featuring fresh material and rich illustrations Uniquely SF Writer treats the design of print and electronic documents as a process like writing itself SF Writer embodies these design principals in a volume full of carefully chosen images and photographs from section dividers that showcase the work of writers to an almanac featuring timelines of notable texts and authors It s not an accident that SF Writer looks exceptionally fresh and contemporary In this edition the media is part of the message Yet SF Writer doesn t forget its responsibilities as a guide to grammar mechanics usage and documentation Its coverage in these areas is unsurpassed Yet even here new themes are sounded For example the model MLA paper is by a student teacher wrestling with a state mandate for competency testing undergraduate research in psychology So both papers demonstrate that undergraduates today really can do serious work as writers and reach live audiences
