in America He shows how America's leaders initially welcomed China's entry into the U S economy believing that trade and engagement would lead to a more democratic China And he explains how although this belief has proved misguided many of our businesspeople and politicians have become too dependent on China to challenge it America Second exposes a deep network of Beijing's influence in America built quietly over the years through prominent figures like former secretaries of state Henry Kissinger and Madeleine Albright Disney chairman Bob Iger and members of the Bush family And it shows how to fight that influence without being paranoid xenophobic or racist This is an authoritative and important story of corruption and good intentions gone wrong with serious implications not only for the future of the United States but for the world at large
