Born-Digital Texts in the English Language Classroom Saskia Kersten, Christian Ludwig, 2024-06-11 This book is the first to focus specifically on born digital texts in EFL teaching uniting international and innovative scholarship with practical classroom applications The book develops a theoretically sound framework for curriculum materials and methods design that takes into account the growing ubiquity of born digital texts in the digital age It covers a broad variety of born digital text types including those generated by AI which

so far have not been an explicit focus in the context of language teaching while also providing a grounding in current discussions around digital tools in education The chapters cover a wide range of issues from methodological approaches to born digital texts to curriculum syllabus and materials design The book will be a valuable introduction to the subject for trainee and practising teachers as well as teacher educators and students on EFL courses Chapter 7 is free to download as an open access publication under a CC BY licence and is available here <https://zenodo.org/records/11174197>

Teaching AI in Film and Media Studies Bridget Kies, Mel Stanfill, 2025-11-25 A timely intervention into the role of AI in teaching film and media studies this book offers insights into how scholars and educators can adapt their approaches in the face of emerging technologies Exploring the intersection of generative AI with film and media studies this book highlights the importance of addressing AI in the classroom It advocates for teaching AI literacy as an extension of media literacy encouraging students to understand AI's biases and limitations It explores the impact of AI on a variety of widely taught topics including copyright and remix culture the concept of authorship and collaborative storytelling film and media production its potential in relation to speculative history and archival research labor concerns in the media industries as well as impacts on fans and audiences The book considers how AI can foster creativity and critical thinking in students as they prepare for future roles in evolving media industries Each chapter features suggested readings activities and assignments that can be implemented in and out of class to reinforce and cultivate AI literacy and proficiency This book is an essential resource for faculty members in Film and Media Studies who want to know more about how to engage with generative AI tools in their teaching as well as graduate students taking pedagogy focused courses
