Decade of Contemporary British Fiction Nick Bentley, Nick Hubble, Leigh Wilson, 2015-10-22 How did social cultural and political events in Britain during the 2000s shape contemporary British fiction The means of publishing buying and reading fiction changed dramatically between 2000 and 2010 This volume explores how the socio political and economic turns of the decade bookended by the beginning of a millennium and an economic crisis transformed the act of writing and reading Through consideration of among other things the treatment of neuroscience violence the historical and youth subcultures in recent fiction the essays in this collection explore the complex and still powerful relation between the novel and the world in which it is written published and read This major literary assessment of the fiction of the 2000s covers the work of newer voices such as Monica Ali Mark Haddon Tom McCarthy David Peace and Zadie Smith as well as those more established such as Salman Rushdie Hilary Mantel and Ian McEwan making it an essential contribution to reading defining and understanding the decade *Contemporary Fiction, Celebrity Culture, and the Market for Modernism* Carey Mickalites, 2022-01-13

Arguing that contemporary celebrity authors like Zadie Smith Ian McEwan Martin Amis Kazuo Ishiguro Salman Rushdie Eimear McBride and Anna Burns position their work and public personae within a received modernist canon to claim and monetize its cultural capital in the lucrative market for literary fiction this book also shows how the corporate conditions of marketing and branding have redefined older models of literary influence and innovation It contributes to a growing body of criticism focused on contemporary literature as a field in which the formal and stylistic experimentation that came to define a canon of early 20th century modernism has been renewed contested and revised Other critics have celebrated these renewals variously arguing that contemporary literature picks up on modernism's unfinished aesthetic revolutions in ways that have expanded the imaginative possibilities for fiction and revived questions of literary autonomy in the wake of postmodern nihilism While this is a compelling thesis and one that rightly questions an artificial and problematic periodization that still lingers in academic criticism those approaches generally fail to address the material conditions that structure literary production and the generation of cultural capital whether in the historical development of modernism or its contemporary permutations This book addresses this absence by proposing a materialist history of modernism's afterlives
