**Augmentation Technologies and Artificial Intelligence in Technical Communication** Ann Hill Duin, Isabel Pedersen, 2023-06-01. This book enables readers to interrogate the technical, rhetorical, theoretical, and socio-ethical challenges and opportunities involved in the development and adoption of augmentation technologies and artificial intelligence. The core of our human

experience and identity is forever affected by the rise of augmentation technologies that enhance human capability or productivity. These technologies can add cognitive, physical, sensory, and emotional enhancements to the body or environment. This book demonstrates the benefits, risks, and relevance of emerging augmentation technologies such as brain-computer interaction devices for cognitive enhancement, robots marketed to improve human social interaction, wearables that extend human senses, augment creative abilities, or overcome physical limitations, implantables that amplify intelligence or memory, and devices, AI generators, or algorithms for emotional augmentation. It allows scholars and professionals to understand the impact of these technologies, improve digital and AI literacy, and practice new methods for their design and adoption. This book will be vital reading for students, scholars, and professionals in fields including technical communication, UX design, computer science, human factors, information technology, sociology of technology, and ethics. The Future of Charity Marketing Sarah-Louise Mitchell, Fran Hyde, 2024-11-07. Charities play an increasingly important role in our society. Whether caring for the vulnerable, campaigning for change, or enabling access to the arts, they are organisations on a mission underpinned by social purpose. However, charities now face unique challenges in a turbulent global economic climate due to structural changes in society post-Covid and pressure on disposable incomes. Charities need to transform and, in some cases, modernise for sustained increasing demand from their service users. They need to engage with a wider range of stakeholders, meet higher public expectations on transparency and governance, and compete for resources from existing as well as a continuous range of new competitors. This book brings together leading scholars to think about what is needed to future-proof the nonprofit sector in areas such as partnerships, collaborations, branding, communications, income generation, and fundraising, stakeholder involvement, and meeting the future needs of service users. This edited collection builds upon the research in the editors' first book, *Charity Marketing: Contemporary Issues, Research and Practice*, to challenge students, researchers, and practitioners in understanding the challenges and opportunities ahead and think about how to future-proof nonprofit marketing. Drawing from a diverse group of academics and deep-thinking practitioners, *The Future of Charity Marketing* focuses on how charities can prepare
