Innovation and Technologies for the Digital Transformation of Education Francisco José García-Peñalvo, María Luisa Sein-Echaluce, Ángel Fidalgo-Blanco, 2024-06-06 This book provides a critical overview of the current use of learning technologies for educational innovation and examines global trends in educational innovation It also shares experiences in educational innovation with learning technologies in Europe and Latin America Despite increasing concerns about the use of technology in education this book discusses how these can be addressed by focusing on fundamental principles such as personalization collaboration engagement accessibility and professional development [Emerging Technologies and Business Development in the Tropics](#) Nurhafihz Noor, Tan Kim Lim, Haejin Jang, Jacob Wood, K. Thirumaran, 2026-03-06 It has been reported that those who live in the Tropics find themselves on the wrong side of the digital divide and lack access to basic technological infrastructure including internet connectivity However a closer look at the state of digital and technology

innovation in this region reveals a more fragmented picture Against a backdrop of needing to grow businesses and seek new opportunities to unleash the potential of the Tropics the existing tensions and opportunities that technology brings to this region and the evolutionary change in business proposition and value chain there is much to still be done to better understand these issues With a Tropical region focus this book explores the extent to which emerging technologies impact business development at nation specific and regional levels It unravels the diverse factors and practices that emerge through technological innovation and its role in driving business development in the Tropics The topics covered in the book include diffusing innovations in the Tropics designing digital customer touchpoints in the Tropics synergizing operations and connectivity in the Tropics and securing the future of Smart Tropics Targeted primarily at academics business practitioners and public policy experts operating in the product and service economies this book provides theoretical and practical insights for anyone interested in the role that emerging technologies may play in business development in the Tropics **Leading**

the Next Era of Public Education Taylor P. Wrye,2026-04-22 **Leading the Next Era of Public Education** presents a comprehensive framework for transforming any school or district in our rapidly evolving technology rich world Cognitive bias institutional routines and compliance cultures keep schools tied to what is familiar over what is effective Are these legacy structures effectively serving teachers and students in the age of artificial intelligence AI and extended reality XR This book offers a practical roadmap for executive leaders governing bodies and school level teams seeking to transition from incremental fixes to system redesign The book aligns strategy operations and instruction to support districts in delivering equitable student centered outcomes Chapters include a wealth of fresh ideas in the following areas Leadership and governance mission clarity transparent communication adaptive scheduling strategic planning and community engagement System architecture integrated technology ecosystems interoperability cybersecurity data quality and sustainable budgeting Teaching and learning asset based pedagogy competency based progression Universal Design for Learning and responsible AI integration Equity and accountability inclusive design routines digital equity benchmarks ethics centered feedback and public reporting tied to student impact And much more Readers will leave with a coherent implementable vision for an adaptive equitable student centered public education system that replaces legacy structures that no longer serve all learners and prioritizes mastery agency and well being
