Less Than One Selected Essays Joseph Brodsky:

Less Than One Joseph Brodsky, 1986 Includes essays on Russian writers Western poets politics and the author's native city Leningrad

Rereading Russian Poetry Stephanie Sandler, 1999-01-01 Russia's poets hold a special place in Russian culture perhaps revealing more about their country than poets within any other nation In this unique and wide ranging collection of writings on poets and poetic trends in Russia contributors from the United States Britain and Russia examine the place of poetry in Russian culture Through a variety of critical approaches these scholars translators and poets consider a broad cross section of Russian poets from Pushkin to Brodsky Shvarts and Kibirov

State of Madness Rebecca Reich, 2018-03-13 What madness meant was a fiercely contested question in Soviet society *State of Madness* examines the politically fraught collision between psychiatric and literary discourses in the years after Joseph Stalin's death State psychiatrists deployed set narratives of mental illness to pathologize dissenting politics and art Dissidents such as Aleksandr Volpin Vladimir Bukovskii and Semen Gluzman responded by highlighting a pernicious overlap between those narratives and their life stories The state they suggested in their own psychiatrically themed texts had crafted an idealized view of reality that itself resembled a pathological work of art In their unsanctioned poetry and prose the writers Joseph Brodsky Andrei Siniavskii and Venedikt Erofeev similarly engaged with psychiatric discourse to probe where creativity ended and insanity began Together these dissenters cast themselves as psychiatrists to a sick society By challenging psychiatry's right to declare them or what they wrote insane dissenters exposed as a self serving fiction the state's renewed claims to rationality and modernity in the post Stalin years They were as they observed like the child who breaks the spell of collective delusion in Hans Christian Andersen's story *The Emperor's New Clothes* In a society where normality means insisting that the naked monarch is clothed it is the truth teller who is pathologized Situating literature's encounter with psychiatry at the center of a wider struggle over authority and power this bold interdisciplinary study will appeal to literary specialists historians of culture science and medicine and scholars and students of the Soviet Union and its legacy for Russia today

In Marx's Shadow Costica Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political views but also to frame oppositional and nonofficial discourses and practices The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post Communist intellectual development as a revival or at least as a return of the

repressed intellectual traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989 Performing Exile, Performing Self Y. Meerzon,2012-04-05 This book examines the life and art of those contemporary artists who by force or by choice find themselves on other shores It argues that the exilic challenge enables the migr artist to re establish new artistic devices new laws and a new language of communication in both his everyday life and his artistic work Less Than One Joseph Brodsky,Gotham Book Mart Collection (University of Pennsylvania),1995 Encyclopedia of the Essay Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies Essays in Poetics ,1998 **Falling Into Language** Chris Wallace-Crabbe,1990 Falling into Language is an absorbing and elegantly written collection of essays on language poetry autobiography memory and dreams In this pioneering work Wallace Crabbe explores the many ways in which the self however provisional or fragmented manifests itself in language This is a book about beginnings and endings it reveals the person in the poem and the critic on the move Silence's Roar John Freedman,1992 Braille Book Review ,1993-05 **Reference Guide to World Literature** Tom Pendergast,2003 Covers writers from the ancient Greeks to 20th century authors Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature Each author entry provides a detailed overview of the writer s life and works Work entries cover a particular piece of world literature in detail Modern Classics Poems Eugenio Montale,2002 Eugenio Montale received many honours including the Nobel Prize in 1975 His lyrical mysterious poems abound in natural images Liguria s sea coast golden sunflowers scolding blackbirds and sun scorched landscapes Full of mythological and literary resonance they poignantly explore the connection between the individual nature and the divine **Word in Time** Leon Burnett,1997 Courage Maria M.
