

Student's Book Answers

The Student's Book answers have been written by the authors and are for guidance only. They contain points that students could select in their answers; note that other answers may be acceptable.

General Marking Guidance

Teachers using these answers are advised to keep the following points in mind at all times:

- The answers provided for the Reading Comprehension and Summary exercises indicate the main details that are required for a correct response but, with the exception of those for the very straightforward, one-mark fact-retrieval questions, these exemplar answers should not be considered as definitive or exclusive. Be prepared to use your professional judgement to reward responses other than those given in the answer booklet as long as they show a clear understanding of the question.
- Teachers, knowing their students' aptitude and abilities, may amend and re-focus the printed comprehension questions as they consider appropriate.
- Throughout the various chapters in the book, we have provided specimen student responses to the main question types (Summary, Composition, etc.), supported by comments and analysis. Teachers should take note of these comments and apply them in their marking of students' responses to similar tasks within the book.
- It is not practicable to give specific guidance for marking students' responses to the Summary, Directed Writing and Composition tasks. We have noted below the main points to be considered, and teachers should adapt these to meet the requirements of their own department's marking policy.

Summary questions:

- For the Reading element of the task, teachers should evaluate the range of relevant ideas referred to in the response and how effectively these have been selected and applied.
- For the Writing element, teachers should evaluate how clearly the ideas have been expressed, the fluency of the writing and how concisely the response has been written.
- In addition to the above, teachers should assess how effectively the response has been organised, the student's use of their own words and/or grammatical structures, and the application of appropriate vocabulary which clarifies meaning.

Directed Writing questions:

- For the Writing element of the task, teachers should evaluate how coherently and effectively the content of the response has been conveyed, the range and appropriateness of the vocabulary used, and how well the student has used a range and variety of sentence structures and types, including complex sentences. The accuracy of spelling, punctuation and grammar should also be taken into account.

Composition questions:

- **Content and Structure:** Teachers should evaluate how effectively a student has used a range of descriptive or narrative techniques to convince and engage their readers and, in particular,
