Concerns of Child

Joshua seems to be anti-social with his peers at day care, and seems generally uninterested in activities. Joshua prefers to be by himself, which is affecting social development, according to caregivers.

Feelings of Child

When prompted, Joshua responded that he does not like others, and that they are "weird." He did not answer many questions, and instead kept his head down. Appears unbothered.

Objective

Toys Used

Action figures in town set

Play Themes

- Lack of attachment
- Controlling
- Messing
- General negative interactions

Verbal Themes

- Boredom

Changes in Play Behavior

Play became more negative when I attempted to interfere with his scene. Joshua did not appreciate outside input, and preferred to control the scene himself, despite lack of interest.

Limits Set

- The buildings are not made to be destroyed

Assessment

Joshua used action figures to play a scene within a town set. He demonstrated a lack of attachment, expressing boredom, and made a mess of the scene with lack of care. He controlled the elements, and wouldn't let me interfere.

Plan

Joshua demonstrates clear anti-social and detachment issues, with a general lack of interest. He can withdraw if feeling threatened, such as my interference, and so it is recommended that Joshua sees me next week to evaluate child therapy options.

Play Therapy Treatment Planning with Children and Families Lynn Louise Wonders, Mary L. Affee, 2024-03-29 Play Therapy Treatment Planning with Children and Families is a comprehensive guide that provides an integrative and prescriptive approach to creating customized treatment plans. It is an excellent textbook for graduate programs in social work counseling and family therapy and an invaluable guide for practicing clinicians in all settings. After exploring and explaining the many modalities for treating children and adolescents, this book provides sample treatment plans using a variety of case vignettes. Chapters also take readers through a road map for case conceptualization, meeting with caregivers, problem identification, goal development, diagnosis determination, determination of interventions, and termination and much more.

Clinical Documentation with Children and Adolescents Amy Marschall, 2023-08-29 This book addresses the unique challenges therapists face when documenting their clinical work with children, providing insight into what ethical, appropriate, and culturally competent practice looks like. Clinical documentation is vital for ethical and legal practice, and good documentation helps clinicians leave room for client-centered and age-appropriate interventions such as play therapy. Beginning with an overview of the important considerations unique to providers working with children, Amy Marschall offers guidance on all aspects of clinical documentation, such as intakes, treatment plans, mental status examinations, progress notes, safety plans, and more. Each chapter includes specific examples of clinical situations with guidance on how to document these situations effectively. With chapters on client confidentiality and telehealth, as well as special attention being paid to cultural awareness, including race, ethnicity, gender, sexual orientation, and socioeconomic status, this book includes blank templates of treatment plans, progress notes, and risk assessments for therapists to use in their practice. This book is essential for any mental health professional who works with children in both individual and family work, including psychologists, licensed clinical social workers, licensed professional counselors, mental health counselors, marriage and family therapists, play therapists, school counselors, and therapist interns.

Solution-Focused Play Therapy Elizabeth Kjellstrand Hartwig, 2020-11-16 Solution Focused Play Therapy is an essential text that blends the process of play therapy with solution-focused therapy. With a focus on child strengths and resources, this book identifies key concepts and principles in solution-focused play therapy (SFPT). The author provides neurobiological and developmental support for SFPT and guidance on how practitioners can transition from using a non-directive approach to a more directive and activity-based approach based on the developmental needs of the child. Chapters describe the 12 basic skills needed for employing this approach with children of all ages and their families. Harnessing a strengths-oriented approach, the author presents expressive ways to use key SFPT techniques, including the miracle question, scaling, finding exceptions, and end-of-session feedback. Clinicians will come away from the book with a suite of interventions, strategies, handouts, and forms that

can be employed with children of all ages and their families from strength based assessment and treatment planning to the final celebration session
