The 7 Laws Of Magical Thinking Pdf:

The 7 Laws of Magical Thinking Matthew Hutson, 2013-02-26 In this witty and perceptive debut a former editor at Psychology Today shows us how magical thinking makes life worth living Psychologists have documented a litany of cognitive biases misperceptions of the world and explained their positive functions Now Matthew Hutson shows us that even the most hardcore skeptic indulges in magical thinking all the time and it's crucial to our survival Drawing on evolution cognitive science and neuroscience Hutson shows us that magical thinking has been so useful to us that it's hardwired into our brains It encourages us to think that we actually have free will It helps make us believe that we have an underlying purpose in the world It can even protect us from the paralyzing awareness of our own mortality In other words magical thinking is a completely irrational way of making our lives make rational sense With wonderfully entertaining stories personal reflections and sharp observations Hutson reveals our deepest fears and longings He also assures us that it is no accident his surname contains so many of the same letters as this imprint

The Dark Side of Transformational Leadership Dennis Tourish, 2013-03-12 Most research into leadership has presented leaders as heroic charismatic and transformational visionaries The leader whether in business politics or any other field is the most important factor in determining whether organizations succeed or fail Indeed despite the fundamental mistakes which have arguably directly led to global economic recession it is often still taken for granted that transformational leadership is a good thing and that leaders should have much more power than followers to decide what needs to be done The Dark Side of Transformational Leadership confronts this orthodoxy by illustrating how such approaches can encourage narcissism megalomania and poor decision making on the part of leaders at great expense to those organizations they are there to serve Written in a lively and engaging style the book uses a number of case studies to illustrate the perils of transformational leadership from the Jonestown tragedy in 1978 when over 900 people were either murdered or committed suicide at the

urging of their leader to an analysis of how banking executives tried to explain away their role in the 2008 financial crisis This provocative and hugely important book offers a rare critical perspective in the field of leadership studies Concluding with a new approach that offers an alternative to the dominant transformational model The Dark Side of Transformational Leadership will be an invaluable text for academics interested in leadership students on leadership courses requiring a more critical perspective and anyone concerned with how people lead people and the lessons we can learn

The 7 Laws of Magical Thinking Matthew Hutson, 2013-01-03 Everyone even the most jaded and sceptical believes in magic in the form of luck mind over matter the power of similarities jinxes and destiny In this wonderful exploration of psychology Matthew Hutson takes us on a fascinating tour of magical thinking in everyday life revealing the healing power of John Lennon's piano the reason gamblers kiss their tickets and why admitting you have no free will staves off addiction

Magic and the Mind Eugene Subbotsky,2010-03-31 In *Magic and the Mind* Eugene Subbotsky provides an overview of the mechanisms and development of magical thinking and beliefs throughout the life span while arguing that the role of this type of thought in human development should be reconsidered Rather than an impediment to scientific reasoning or a byproduct of cognitive development magical thinking serves important and necessary functions that are integral to social cognitive and psychological development

Magical Thinking Oliver Latchford,2024-05-09 Latchford introduces the rational skeptic to the possibility of magic but without stupefying him with new age affirmations He looks at the way human goes about solving his everyday problems and how the use of fiction and myth is key to this process The manuscript is in itself a ritual of invocation a journey into the irrational It impresses upon the reader to awaken inside an interactive reality an unfolding storyline in which he must play the lead role Through his command of idiom and metaphor human can awaken to an unspeakable mystery the irresistible force of a storyline when it is in full flow It is the story of the self that is on one hand real and on the other fictional For the human soul is conceived inside the body of a storyline born of an elaborate fiction so that it might become real The self cannot exist without the story of the self being told It identifies with every hero and sometimes the villain is the real hero
