

An aerial photograph of a dense forest with a blue fishing net draped over it. The net is spread across the trees, with some parts hanging down. The forest floor is visible through the canopy, showing a mix of green and brown. The net is a vibrant blue color, contrasting with the natural tones of the forest.

## **The Age Of Sustainable Development:**

**The Age of Sustainable Development** Jeffrey D. Sachs, 2015-03-10 Jeffrey D Sachs has shown himself to be one of the world's most perceptive and original analysts of global development in his groundbreaking books including *The End of Poverty* and *Common Wealth Economics for a Crowded Planet*. Now in this major new work he presents a compelling and practical framework for how global citizens can address the seemingly intractable worldwide problems of persistent extreme poverty, environmental degradation and political economic injustice. Sachs outlines the holistic way forward: sustainable development. This provocative work offers readers, students, activists, environmentalists and policy makers the tools, metrics and practical pathways they need to achieve Sustainable Development Goals. Far more than a rhetorical exercise, this book is designed to inform, inspire and spur action. Based on Sachs's twelve years as director of the Earth Institute at Columbia University, his thirteen years advising the United Nations secretary general on the Millennium Development Goals and his recent presentation of these ideas in a popular online course, *The Age of Sustainable Development* is a landmark publication and a clarion call for all who care about our planet and global justice. *The Age of Sustainable Development* Jeffrey Sachs, Ban Ki-Moon, 2015

**Routledge Handbook of the UN Sustainable Development Goals Research and Policy** Ranjula Bali Swain, Peter Dobers, 2025-04-30 This handbook brings together a collection of seminal research on the Sustainable Development Goals (SDGs) and investigates the effectiveness of the 17 goals for achieving transformative change toward sustainable development. As a collection of inter- and transdisciplinary research from around the world, this volume explores the applications, implications and best practices of the goals at thematic, regional and national levels, providing specific examples from a diverse range of places such as Australia, Brazil, China, DRC, India, Italy, the Sahel region of Africa and the USA, among others. The book serves as a mid-term evaluation of the SDGs, bringing to the fore comprehensive experiences and evidence related to the SDGs whilst highlighting the interlinkages between the different goals. The handbook is divided into two parts: Part I brings together groundbreaking research to define, identify and present conceptual frameworks for a sustainable future, whilst Part II focuses on the policies, practices and implementation of the SDGs. The chapters identify key aspects missing from the 2030 Agenda, such as global power imbalances, cultural diversity, Indigenous rights and unsustainable levels of consumption; they also critically evaluate the overall delivery and effectiveness of the SDGs whilst outlining potential future directions for the post-SDG 2030 Agenda. This handbook is aimed at a diverse and global audience of academics and students of economics, business studies, political science and development studies. It will also serve as a valuable reference for leaders in the industry, the public sector, civil society and international policymakers keen to gain a better understanding of the SDGs. *International Business and Sustainable Development Goals* Rob van Tulder, Elisa Giuliani, Isabel Álvarez, 2023-07-31 The Sustainable Development Goals (SDGs) represent the leading governance frame with which the international community tries to address complex interconnected global issues. The SDGs can be considered the

only relevant agenda for progress in the years to come

*Food Policy and Food Security* Stephen K. Wegren, Alexander Nikulin, Irina Trotsuk, 2018-03-28 This book provides a comprehensive analysis of Russian food policy Food policy is defined as the way government policy influences food production and distribution Russia's food policy is important for several reasons The first and most obvious reason is that a dysfunctional food policy is symptomatic of larger political and societal problems A failing food policy is often the precursor to political instability Russian food policy is also important is due to the agricultural recovery since 2004 that has allowed Russia to become self sufficient in grain production Being food sufficient in grain means that Russia is not drawing upon global grain supply Even more important Russia now produces surpluses and has become a global grain supplier Moreover the agricultural recovery has made the country food secure traditionally defined as having enough food for a healthy life An analysis of food policy reveals that the structure of food production has changed with the emergence of mega farms called agrohholdings that are horizontally and vertically integrated Agrohholdings represent a concentration of capital and land with a small number of farms producing large percentages of total food output The book explores alternatives to the industrial agricultural model by discussing different variants of sustainable agriculture A final importance of Russian food policy concerns food trade Russia has become more protectionist since 2012 The food embargo against Western nations 2014 2017 is one example so too is import substitution that is a core component of food policy The book demonstrates the politicalization of external food trade Food trade and denial of access to the Russian market is used as an instrument of foreign policy to punish countries with whom Russia has disagreements Current Russian policymakers have food resources to augment support and extend national interests abroad Russia historically has cycled through periods of integration and isolation from the West This book raises the question whether a new normal has arisen that is characterized by the permanent withdrawal from integration as evidenced by its nationalist and protectionist food policy The book is entirely original rich in detail and broad in scope It is based on field work survey data a wide reading of primary sources and the secondary literature all of which are linked to important policy questions in development studies and food studies It is destined to become a classic book on Russian food policy

*The Ages of Globalization* Jeffrey D. Sachs, 2020-06-02 Today's most urgent problems are fundamentally global They require nothing less than concerted planetwide action if we are to secure a long term future But humanity's story has always been on a global scale In this book Jeffrey D Sachs renowned economist and expert on sustainable development turns to world history to shed light on how we can meet the challenges and opportunities of the twenty first century Sachs takes readers through a series of seven distinct waves of technological and institutional change starting with the original settling of the planet by early modern humans through long distance migration and ending with reflections on today's globalization Along the way he considers how the interplay of geography technology and institutions influenced the Neolithic revolution the role of the horse in the emergence of empires the spread of large land based empires in the classical age the rise of global empires after the opening of sea

routes from Europe to Asia and the Americas and the industrial age The dynamics of these past waves Sachs demonstrates offer fresh perspective on the ongoing processes taking place in our own time a globalization based on digital technologies Sachs emphasizes the need for new methods of international governance and cooperation to prevent conflicts and to achieve economic social and environmental objectives aligned with sustainable development The Ages of Globalization is a vital book for all readers aiming to make sense of our rapidly changing world *Libraries Driving Education for Sustainable Development* Petra Hauke, Antonia Mocatta, Priscilla Nga Ian Pun, 2025-06-02 The book refers to the UNESCO s ESD for 2030 education program Libraries especially green and sustainable libraries deserve prominent recognition as learning institutions and active driving partners for Education for Sustainable Development and which support their governments sustainability efforts In line with the Berlin Declaration on ESD and the UNESCO program the book focuses on innovative approaches and informal education projects created and provided by green and sustainable libraries CSR in an age of Isolationism David Crowther, Farzana Quoquab, 2020-11-30 An investigation of the effects of an increasing retreat towards isolationism which is developing in the world The research takes places at global regional industrial and local levels in locations around the world to arrive at an analysis **Local Places in the Age of the Global City** Roger Keil, Gerda R. Wekerle, David V. J. Bell, 1996 The ugly grey heap of cement and asphalt that makes up much of the urban sprawl is something most of us wish would just go away And yet more than half the world s population will live in urban centres by the turn of the millennium and most will be exposed to degraded urban environments The contributors to Local Places look at the complex social economic and political contexts of cities in the 1990s and suggest that cities and urbanity while part of the problem also need to be considered as part of the solution This volume brings together clear and critical analyses and practical proposals that bring us closer to that reality A primer for urban ecologists who seek to sustain the local places but in the larger political context Local Places provides planners community activists students and the general reader with a cross section of current debates and proposals surrounding urban sustainability The Age of Deficits Iwan W. Morgan, 2009 This first historical study of U S budget policy covering the last three decades places the budget at the center of modern American politics and adds an important dimension to the understanding of recent events Fragmentation, Diversification and Expansion of International Law Canadian Council on International Law. Conference, John McManus, 2006 **The Caribbean Economy in the Age of Globalization** Ransford W. Palmer, 2009-03-15 The book examines the status of the Anglophone Caribbean economy and the options it faces as traditional preferential trade arrangements begin to disappear Two broad options are explored one is the transformation of primary exports into higher value added products and the other is a shift in the economic structure toward tourism and other services The book constructs a model of a potential Caribbean economy described as a travel economy The travel economy is based on two enduring features of Caribbean life tourism and migration and it is meant to provide a benchmark against which to gauge the evolution of the structure of individual economies The main contribution of this book

is a concise and methodological treatment of the issues of transition and adjustment that the Caribbean faces in an increasingly liberalized international trading system
