Handbook of Intelligent Computing and Optimization for Sustainable

Development Mukhdeep Singh Manshahia,Valeriy Kharchenko,Elias Munapo,J. Joshua Thomas,Pandian Vasant,2022-02-11

HANDBOOK OF INTELLIGENT COMPUTING AND OPTIMIZATION FOR SUSTAINABLE DEVELOPMENT This book provides a comprehensive overview of the latest breakthroughs and recent progress in sustainable intelligent computing technologies applications and optimization techniques across various industries Optimization has received enormous attention along with the rapidly increasing use of communication technology and the development of user friendly software and artificial intelligence In almost all human activities there is a desire to deliver the highest possible results with the least amount of effort Moreover optimization is a very well known area with a vast number of applications from route finding problems to medical treatment construction finance accounting engineering and maintenance schedules in plants As far as optimization of real world problems is concerned understanding the nature of the problem and grouping it in a proper class may help the designer employ proper techniques which can solve the problem efficiently Many intelligent optimization techniques can find optimal solutions without the use of objective function and are less prone to local conditions The 41 chapters comprising the Handbook of Intelligent Computing and Optimization for Sustainable Development by subject specialists represent diverse disciplines such as mathematics and computer science electrical and electronics engineering neuroscience and cognitive sciences medicine and social sciences and provide the reader with an integrated understanding of the importance that intelligent computing has in the sustainable development of current societies It discusses the emerging research exploring the theoretical and practical aspects of successfully implementing new and innovative intelligent techniques in a variety of sectors including IoT manufacturing optimization and healthcare Audience It is a pivotal reference source for IT specialists industry professionals managers executives researchers scientists and engineers seeking current research in emerging perspectives in the field of artificial intelligence in the areas of Internet of Things renewable energy optimization and smart cities

EASYUNI Ultimate University Guide 2014 EasyUni Sdn Bhd,2014-07-02

Hi there It s nice to present you once again with another hot issue of easyuni On 11 June this year we launched the unifrens social platform an extension to easyuni s existing vision of providing comprehensive and accurate information to students about colleges and universities This is another milestone in the history of easyuni as one of Asia s most popular education portals committed to helping students with their higher education plans unifrens is a social platform which allows students searching for universities and colleges with similar interests to connect with each other to help them make unbiased and community driven decisions about their higher education It also allows them to connect with students who are currently enrolled at universities who can tell them about their experiences about a particular city country university or a course unifrens is something we had been planning for a while to complement our current family of tools for students We always knew that our users would love it as they want

more community driven information instead of promotional content from universities and study abroad consultants I believe this feature will democratise the way information about specific courses countries or institutions is presented and this can only mean good news for students and their parents visitors as it helps them make more informed decisions about which course institution or country to pick Students can also pose questions to their groups which will be answered by experts and the community The feature is still in its beta stage but has gained massive traction with over 100 000 users already registered and assigned to groups Exciting isn't it The issue you're holding now has so much to offer as well So read every page and fill yourself with all the knowledge needed to make informed decisions about your higher education
