**Holocaust Education and the Semiotics of Othering in Israeli Schoolbooks** Nurit

Elhanan-Peled,2023-09-11 The Zionist pedagogical narrative reproduced in schoolbooks views the migration of Jews to Israel as the felicitous conclusion of the journey from the Holocaust to the Resurrection It negates all forms of diasporic Jewish life and culture and ignores the history of Palestine during the 2000 year long Jewish exile This narrative otherizes three main groups vis vis whom Israeliness is constituted Holocaust victims who are presented in a traumatizing manner as the stateless and therefore persecuted Jews we refuse but might become again if we lose control over Palestinian Arabs who constitute the second group of others Palestinians are racialized demonized and portrayed as our potential exterminators The third group of others comprises non European Mizrahi and Ethiopian Jews They are described as backward people who lack history or culture and must undergo constant acculturation to fit into Israel s Western society Thus a rhetoric of victimhood and power evolves and a nationalistic interpretation of the never again imperative is inculcated justifying the Occupation and oppression of Palestinians and the marginalization of non European Jews This rhetoric is conveyed multimodally through discourse genres and visual elements The present study which advocates a multidirectional memory proposes an alternative Hebrew Arabic multi voiced and poly centered curriculum that would relate the accounts of the people whom the pedagogic narrative seeks to conceal and exclude This joint curriculum will differ from the present one not only in content but also ideologically and semiotically Instead of traumatizing and urging vengeance it will encourage discussion and celebrate diversity and hybridity

Snell,Johnna Elliott,2000 The space industry is entering a new era of expanded freedom of opportunity to compete unencumbered by government agendas. This freedom carries a price. The political subsidy culture of the past is dying so failure is not only possible but likely for the unprepared and inefficient. For more casual observers the overview of the currents in space commerce history will be invaluable in identifying space related economic opportunities and will enable those more experienced in the field to reevaluate their future. The author informs the public of the potential that exists in space related industries while making it clear to practitioners that there is a new imperative coming into existence with the decline and marginality of NASA in commercial space. The future economic potential is projected in ways not always perceived by those immersed in day to day operations.
