Matthew McMahan,2017-09-13 This work by Vinet is one of the most quoted volumes in the history of teaching ministers the science of homiletics Homiletics is the study of sermon preparation and preaching the Word of God with boldness faithfulness and precision The office of the Evangelical Ministry consists of different elements among which the Word of God has the predominance The Christian religion the religion of liberty and persuasion is a word Jesus Christ who is at once the Author and the Object of Christianity is called the Word The Word is the pastor s great instrument The minister speaks either on the part of man to God or on the part of God to man in doing the first he prays in doing the second he preaches It is of the second that this work treats The Word is of the highest importance and a minister is essentially a man who heralds the Word of God This act of preaching has been reduced down into a teachable art It gives preachers eloquence in their preaching if the rules of homiletics are faithfully followed and as they are biblically solidified The nature of ecclesiastical discourse involves differences from regular public speaking and adds specific biblical rules which constitute a particular art under the name of Homiletics Here the minister if he is to preach the Word of God effectively and for the glory of Christ would be required to master his language gestures looks etc in order to be more eloquent in faithfully biblically and precisely preaching the Word of God to the people of God This volume constitutes one of the greatest courses on homiletics given in the history of the Christian church It would serve any minister well who desires to faithfully feed his flock in both the act of sermon preparation and preaching from the pulpit
