Effects of Mobile Banking Service Quality on Customer Satisfaction. The Case of Commercial Bank, Ethiopia Tarekegn Balango, 2023-04-25 Seminar paper from the year 2023 in the subject Business economics Business Management Corporate Governance grade 3 85 course Master of business administration language English abstract It was proven that perceived service quality had a positive relationship with customer satisfaction and the researcher think this supports the argument of linking mobile banking service and customer satisfaction They use the SERVQUAL model but rather the dimensiononly scale to assess service quality other than website design and responsiveness The researcher therefore think using the SERVQUAL model MiykelSisaye model would be

a contribution to existing research mobile banking context This is the current research gap and in order to fill the gap the researcher was try to measure service quality and customer satisfaction The study aimed at examining the effect of five online banking service quality dimensions on the customers satisfaction in the case of CBE The study followed an explanatory research design identifying the dimensions of service quality for online services namely reliability responsiveness personalization web design and security as independent variable and customer satisfaction as dependent variable Primary data was collected for the analysis based on five points Likert scale from 396 sample respondents who are customers of CBE online banking services The data was coded and analyzed using SPSS version 25 software The reliability of the instrument was checked using Cronbach s alpha test The data analysis employed both descriptive and inferential statistical methods The descriptive statistics was used for summarizing the background of respondents and computing average score of CBE on each dimensions of service quality and customers satisfaction Correlation and multiple regression analysis were conducted to examine the relationship between the dependent and independent variables

Customer satisfaction towards e-banking services offered by NEPAL SBI Bank LTD Sanjeev Pradhan,2019-11-21 Case Study from the year 2019 in the subject Business economics Offline Marketing and Online Marketing grade A course School of Commerce and Management language English abstract This study aims to analyze the level of satisfaction of customer their agreeableness towards e banking services offered by Nepal SBI bank With the growing trend of Information Communication Entertainment and Technology it has embarked the way towards globalization It is imperative to understand the degree of customer satisfaction towards the E banking services provided by financial institutions in Nepal However the researcher has endeavored to measure and found that customer satisfaction is affected by the perceived ease of use website contents and security of services It is very obvious in today s context to be sensitive towards the security of transactions from being phising and hacking of customers data and information Hence an ethical hacker with IT Risk Officer having expertise knowledge government support in IT Infrastructure Cloud Computing Environment is a must for the need of an hour to create a level of trusts in banks

An investigation of factors influencing corporate customers acceptance of Internet banking Silvanice Onyango Abeka,2012-06-28 Master s Thesis from the year 2009 in the subject Computer Science Internet New Technologies grade B course MBA INFORMATION TECHNOLOGY language English abstract It is increasingly more interesting to the bank managers to understand what is important to customers when it comes to Internet banking and especially banking conducted by the customers themselves Corporate customers and Internet banking has been studied very modestly in the past and especially the decision making factors driving customers to go online The purpose of this research is to identify the factors that influence corporate customers adoption of Internet banking services in Kenya Uganda Tanzania and Rwanda The hypotheses are empirically evaluated by using Trade Finance customers of an East African bank as the target sample Technology Acceptance Model TAM is the primary basis for the study The information gathered from former studies that are

mainly concentrating on private customer acts as a foundation for building an extension of TAM suitable for corporate customers Due to the quantitative nature of the study the results are analysed with statistical measures The analysis reveals that corporate users are not motivated by the same factors as private users In order to become Internet banking customers it is extremely important for corporate users to have a system that is easy to use and operate with full support from the bank
