that doesn't mean that material possession is bad. The idea here is to have the things that one needs and appreciates in their life today. Keeping things that no longer serve you or buying stuff because of a scarcity mentality is highly discouraged. The reason this lifestyle is gaining popularity is that more and more people are starting to realize the value we attach to items. The fact that most of us cannot separate our memories and emotions from material things is alarming. The amount of consumerism in the world is also at an all-time high. People have always loved things but not as much as they do now that there is so much access thanks to technology. Minimalism allows someone to make their list of things they need to keep. You may still retain most of the stuff you have if you decide that you need them. No two people can have the same wants or needs. Whatever you think is trash could be relevant to someone else. The guiding principle here is to look within yourself and make a deliberate conscious decision on what you want to keep or throw away. For anyone that is wondering if this lifestyle is for them, they need to ask themselves a few questions: Would I benefit from scaling down? Do I attach so much value to material possessions? Am I holding on to baggage that I need to let go? I am not saying that these are the only questions there are to be asked. Every person is attracted to the lifestyle because of different reasons. But they only become true minimalists if when they are free to focus on what they deem essential. Our book covers the following topics: Minimalism For Beginners, Minimalism, digital minimalism, minimalism for families, minimalist living, minimalism home, declutter your mind.

Minimalist Living by Nicholas Morris, 2017-08-18. Are you searching for a more fulfilling life? Are you struggling to find meaning in your everyday life? Are you stressed by the clutter of your living space and feel like your mind is cluttered as a result? If so, *Minimalist Living* by Nicholas Morris is THE book for you. It covers all you need to know about how to start living a minimalist lifestyle. Minimalist living is all about being content and satisfied with what you have rather than pursuing desperately after what you want. According to a statistic reported in the LA Times, each American family has on average 300,000 items in their home. Many of these items we forget about underneath piles of other objects. The Wall Street Journal reports that Americans spend 1.2 trillion a year on non-essential items. This causes a great deal of clutter in our homes and in our minds as we lose almost 200,000 items in our lifetimes on average. How can we start to control this growing problem and keep our minds, homes, and lives free of clutter? Minimalist living is the answer that will bring meaning back into a life that has been based on material accumulation. What separates this book from the rest? This book teaches you those things along with everyday applications and questions to help you put what you learn into action. You will learn truly useful tips in no time on how to minimize your home, your clutter, and your life to find deeper meaning in relationships and experiences rather than the superficial meaning that comes from material wealth.
