### **Advanced Capsule Wardrobe Explained For Beginners:**

Sustainable Fashion Management Claudia E. Henninger, Kirsi Niinimäki, Marta Blazquez, Celina Jones, 2022-07-29 This book provides a holistic and accessible approach to sustainable fashion management. It offers an interdisciplinary and practical outlook combining theory with practical application from a management perspective and underpinned by the Sustainable Development Goals throughout. The book helps students to gain a better understanding of what sustainable fashion is and how it is implemented across the fashion industry through business model innovations, innovative designs, new technology and digital approaches, and material innovations. Global case studies are employed throughout each chapter, including fashion companies and events of all sizes alongside other pedagogical features to aid learning, including key learning points, chapter objectives, and textboxes explaining key terminology. This is an essential textbook for those investigating sustainable fashion, whether from a design or management perspective, providing the knowledge and tools for a future career. It is designed to serve Fashion Business and Management, Fashion Marketing, Fashion Buying and Merchandising, and Fashion Technology courses at all levels and will also be valuable reading for those already working within the fashion industry and studying for professional qualifications. Online resources include chapter by chapter PowerPoint slides and a test bank.

**Teaching and Learning Sustainable Consumption** Daniel Fischer, Marlyne Sahakian, Jordan King, Jen Dyer, Gill Seyfang, 2023-05-08 This book is a comprehensive guide on how to teach sustainable consumption in higher education. *Teaching and Learning Sustainable Consumption: A Guidebook* systematizes the themes, objectives, and theories that characterize sustainable consumption as an educational field. The first part of the book discusses approaches to teaching and learning sustainable consumption in higher education, including reflections on how learning occurs, to more practical considerations like how to set objectives or assess learning outcomes. The second part of the book is a dive into inspiring examples of what this looks like in a range of contexts and towards different aims, involving 57 diverse contributions by teachers and practitioners. Building on the momentum of a steady increase in courses addressing sustainable consumption over the past decade, this guidebook supports innovative approaches to teaching and learning while also bringing to the fore conceptual debates around higher education and sustainability. Overall, this book will be a seminal resource for educators teaching about sustainability and consumption. It will help them to navigate the specifics of sustainable consumption as a field of scholarship and design their teaching approaches in a more informed, competent, and creative way.

*Compatibility Modeling* Xuemeng Song, Liqiang Nie, Yinglong Wang, 2022-06-01 Nowadays fashion has become an essential aspect of people's daily life. As each outfit usually comprises several complementary items such as a top, bottom, shoes, and accessories, a proper outfit largely relies on the harmonious matching of these items. Nevertheless, not everyone is good at outfit composition, especially those who have a poor fashion aesthetic. Fortunately, in recent years, the number of online fashion-oriented communities like IQON and Chictopia, as well as e-commerce sites like Amazon and eBay

has grown The tremendous amount of real world data regarding people s various fashion behaviors has opened a door to automatic clothing matching Despite its significant value compatibility modeling for clothing matching that assesses the compatibility score for a given set of equal or more than two fashion items e g a blouse and a skirt yields tough challenges a the absence of comprehensive benchmark b comprehensive compatibility modeling with the multi modal feature variables is largely untapped c how to utilize the domain knowledge to guide the machine learning d how to enhance the interpretability of the compatibility modeling and e how to model the user factor in the personalized compatibility modeling These challenges have been largely unexplored to date In this book we shed light on several state of the art theories on compatibility modeling In particular to facilitate the research we first build three large scale benchmark datasets from different online fashion websites including IQON and Amazon We then introduce a general data driven compatibility modeling scheme based on advanced neural networks To make use of the abundant fashion domain knowledge i e clothing matching rules we next present a novel knowledge guided compatibility modeling framework Thereafter to enhance the model interpretability we put forward a prototype wise interpretable compatibility modeling approach Following that noticing the subjective aesthetics of users we extend the general compatibility modeling to the personalized version Moreover we further study the real world problem of personalized capsule wardrobe creation aiming to generate a minimum collection of garments that is both compatible and suitable for the user Finally we conclude the book and present future research directions such as the generative compatibility modeling virtual try on with arbitrary poses and clothing generation
