

ECO 352 – International Trade – Spring Term 2010  
MIDTERM EXAMINATION – ANSWER KEY

The distribution of grades was as follows:

Range	90-99	80-89	70-79	60-69	50-59	40-49
Numbers	5	13	10	5	0	2

The question-by-question aggregate statistics were:

	Q.1 (/20)	Q.2 (/40)	Q.3 (/40)	Total
Mean	15.9	26.1	35.7	77.8
StdDev	2.8	8.8	5.9	13
Median	16	27	37	80

Generally a very good performance, but some avoidable weakness.

In Q.2, the big distinction was between those who could draw the offer curves and those who could not. Some drew just the general-shaped offer curves; you need to draw the ones for the specific functional forms (Cobb-Douglas) specified.

In Q.3(c), several people were unable to explain why labor fares ambiguously in the medium run, even though this had been covered in the context of the sample exam both in the precept and the review session.

In Q.3(d), some of you spoke of an improvement America's terms of trade. The terms of trade are not just any relative price; they are the relative price of the exported good. Since the question does not specify which good is exported (and in fact this part makes an explicit issue of that), you cannot say that an increase in the price of corn relative to autos (same as a fall in the price of autos relative to corn) is an improvement in America's terms of trade.

**QUESTION 1: 20 points**

[1] (10 points) U.S. automakers compete against other American industries for labor (and perhaps also for capital to the extent that capital is not fully internationally mobile). This competition determines the wages they have to pay, and therefore their costs. Even if the American auto industry's productivity matches or even exceeds that of the Japanese auto industry, if other American industries have an even bigger productivity advantage over the corresponding Japanese industries, then American auto makers will have to pay much higher wages and will remain at a cost disadvantage vis a vis Japanese ones. This is exactly the Ricardian notion of comparative advantage. Even if American auto makers have absolute advantage over Japanese ones, they need not have comparative advantage. There can also be a demand side effect if American and Japanese consumers' taste for autos differ.

**Obama Power** Jeffrey C. Alexander, Bernadette N. Jaworsky, 2014-08-12 What is the source of Obama s power How is it that after suffering a humiliating defeat in the 2010 mid term elections Obama was able to turn the situation around deftly outmaneuvering his opponent and achieving a decisive victory in the November 2012 presidential election In this short and brilliant book Jeffrey Alexander and Bernadette Jaworsky argue that neither money nor demography can explain this dramatic turnaround What made it possible they show was cultural reconstruction Realizing he had failed to provide a compelling narrative of his power the President began forging a new salvation story It portrayed the Republican austerity budget as a sop to the wealthy and Obama as a courageous hero fighting for plain folks against the rich The reinvigorated cultural performance pushed the Tea Party off the political stage in 2011 and Mitt Romney became fodder for the script in 2012 Democrats painted their Republican opponent as a backward looking elitist a Bain capitalist whose election would threaten the civil solidarity upon which democracy depends Real world events can spoil even the most effective script Obama

faced monthly unemployment numbers the daunting Bin Laden raid three live debates and Hurricane Sandy The clumsiness of his opponent and his own good fortune helped the President but it was the poise and felicity of his improvisations that allowed him to succeed a second time Converting events into plot points the President demonstrated the flair for the dramatic that has made him one of the most effective politicians of modern times While persuasively explaining Obama's success this book also demonstrates a fundamental but rarely appreciated truth about political power in modern democratic societies namely that winning power and holding on to it have as much to do with the ability to use symbols effectively and tell good stories as anything else
