2017 Outlook Ihs Markit:

2017 Report to Congress of the U.S.-China Economic and Security Review Commission, November 2017, 115-1,2018 *ITF Transport Outlook 2021* International Transport Forum,2021-05-17 The ITF Transport Outlook 2021 provides scenarios for the development of transport demand up to 2050 This edition includes a special focus on the impacts of the Covid 19 pandemic on transport systems and models potential long term changes with challenges and opportunities for decarbonisation *Report to the Congress :. Medicare Payment Advisory Commission (U.S.),2003* *Future Access Enablers for Ubiquitous and Intelligent Infrastructures* Dragan Perakovic,Lucia Knapcikova,2021-06-19 This book constitutes the refereed post conference proceedings of the 5th International Conference on Future Access Enablers for Ubiquitous and Intelligent Infrastructures FABULOUS 2021 held in May 2021 Due to COVID 19 pandemic the conference was held virtually This year s conference topic covers security of innovative services and infrastructure in traffic transport and logistic ecosystems The 30 revised full papers were carefully reviewed and selected from 60 submissions The papers are organized in thematic sessions on Internet of things and smart city smart environment applications information and communications technology smart health applications sustainable communications and computing infrastructures *The Decarbonization Imperative* Michael Lenox,Rebecca Duff,2021-10-19 Time is of the essence Climate change looms as a malignant force that will reshape our economy and society for generations to come If we are going to avoid the worst effects of climate change we are going to need to effectively decarbonize the global economy by 2050 This doesn t mean a modest or even a drastic improvement in fuel efficiency standards for automobiles It means 100 percent of the cars on the road being battery powered or powered by some other non carbon emitting powertrain It means 100 percent of our global electricity needs being met by renewables and other non carbon emitting sources such as nuclear power It means electrifying the global industrials sector and replacing carbon intensive chemical processes with green alternatives eliminating scope one emissions emissions in production across all industries particularly steel cement petrochemicals which are the backbone of the global economy It means sustainable farming while still feeding a growing global population Responding to the existential threat of climate change Michael Lenox and Rebecca Duff propose a radical reconfiguration of the industries contributing the most and most harmfully to this planetary crisis Disruptive innovation and a particular calibration of industry dynamics will be key to this change The authors analyze precisely what this might look like for specific sectors of the world economy ranging from agriculture to industrials and building energy and transportation and examine the possible challenges and obstacles to introducing a paradigm shift in each one With regards to existent business practices and products how much and what kind of transformation can be achieved The authors assert that markets are critical to achieving the needed change and that they operate within a larger scale of institutional rules and norms Lenox and Duff conclude with an analysis of policy interventions and strategies that could move us toward clean tech and decarbonization by 2050 **Asian Development Outlook** ,2018

International Arbitration in the Energy Sector Maxi Scherer, 2018-02-22 Disputes in the energy and natural resources sector are at the heart of international arbitration With more arbitrations arising in the international energy sector than in any other sector it is not surprising that the highest valued awards in the history of arbitration come from energy related arbitrations Energy disputes often involve complex and controversial issues relating to security sovereignty and public welfare International Arbitration in the Energy Sector puts international energy disputes into a global context providing broad coverage of different forms and systems of dispute resolution across both renewable and non renewable sectors With contributions from leading arbitrators academics and industry experts from across the globe the twenty chapters in the book enable readers to compare the approaches to and learnings from energy arbitrations across various legal systems and geographic regions After outlining the international energy arbitration legal framework in Part I the text delves into a detailed analysis of the problems which regularly arise in practice These include among other things commercial disputes in Part II e g over the upstream oil sector and long term gas supply contracts investor state disputes in Part III e g under the Energy Charter Treaty and public international law disputes in Part IV e g concerning international boundaries and the distribution of natural resources Alongside recent developments in the international energy sector attention is given to climate and sustainable development disputes which raise important questions about enforcing sustainability objectives on individuals corporations and states Backed by analyses of arbitral awards national court and international tribunal decisions treaties and other international legal instruments as well as current events and news in the energy industry this text offers a unique contribution to international energy literature and provides insightful commentary on the prevalent issues in the field It is essential reading for any practitioner or researcher in the energy and natural resources sector
